A careful Agent in attendance at Warchouse, Reed's Point, between 8 a.m., and 6 p.m., daily, \$120 to \$140, Cy. to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard te children, amid the distressing diseases which beset the Throat and Chest of childhood, Cherry Protoral is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utraest possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.
