The Transcript

Published every Thursday morning from The Transcript Building, Main Street, Glencoe, Ontario. Subscription—In Canada, \$2.00 per year; in the United States and other foreign countries, \$2.50 per year.

Advertising.—The Transcript covers a wide section of territory in Western Ontario, and its readers are the leading farmers and townsmen. It is a first-class advertising medium. Rates on application.

Job Printing.—The Jobbing Department has superior equipment for turning out promptly books, pamphlets, circulars, posters, blank forms, programs, cards, envelopes, office and wedding stationery, etc.

A. E. Sutherland, Publisher.

If Conan Doyle be right in his assertion that the spirits marry, but do not have children, a comparison of a record of the old-time families with those of today will show that the world is getting more like heaven.

According to figures just compiled, there are 35,000 churches in the United States without pastors while only 1,450 new ministers graduated this year. The empty pulpit presents a real problem but so also does the empty pew.

The Workmen's Compensation Act plays a big part in this province. Accidents totalling 54,851 were reported under the Act during the past year, of which 452 were fatal. The sum of \$7,076,769 was awarded in benefits to injured workmen.

Last year the American people spent \$22,700,000,000 for luxuries. Candy took a cool billion. Cigarettes took \$800,000,000, perfume and cosmetics \$750,000,000, and so on down through the list. There always seems to be plenty of money for selfish purposes.

The Listowel papers announce that the prize lists of the local exhibition to be held next fall are now ready for distribution. The Listowel exhibition directors have gone a long way towards insuring the success of their show by getting their prize lists out so early in the season.

You remember the old days in Canada when we had excursions. Sunday schools chartered trains. The farmers had an outing to the O. A. C. People went here and there on very cheap rates. Those excursion trains disappeared with the war. They may come back now, however, as a bill has been introduced at Ottawa to restore the old holiday fares.

Announcement is made by the Department of Immigration and Colonization of a change of requirements concerning immigrants entering Canada. The change going into effect immediately. Under the new requirements, instead of a money test there will be a test to determine the fitness of immigrants by their occupation. The regulations, which it is claimed, facilitate the movement of Britishers from the mother country and the other self-governing dominions to Canada and are framed particularly to encourage settlement in Canada by the agricultural and domestic servants classes as these are the classes immediately in demand. In the cases of persons of other classes entering from the United States, Canada will freely admit those whose labor is required in the Dominion.

To such an extent is the radio-telephone in use in Western Ontario that the Department of Naval Service at Ottawa has seen fit to appoint a local inspector for this district alone. At present W. E. Beattie, whose home is in Mount Brydges, is fulfilling the duties of this office, but as he has

the whole Ontario field to cover he cannot possibly make a thorough investigation of this end of the province. Therefore the department has authorized him to appoint an assistant to work part time. The applicant must be versed in radio affairs, capable of inspecting sets, allotting wave lengths to broadcasting stations so that there will be little or no conflict with adjacent stations, examining operators at such stations, and receiving license fees for receiving stations. Any person desirous of applying for that post should communicate with W. E. Beattie, radio inspector, Mount Brydges, Ont.

Canadian weekly newspapers are being inundated with copy for half-page and even whole-page advertisements of United States oil and mining companies, along with tempting offers of commissions on sales made in their respective neighborhoods. To their everlasting honor, he it said, all are turning down these questionable advertisements. We inquired of the Canadian Weekly Newspapers' Association regarding this, and we were informed that the weekly newspapers have been forwarding these intended advertisements to the central office as they arrive, along with comments which show that the editors are determined to provide no revenue by which their subscribers will have their hard-earned savings filched from them. The editors are of the opinion that most of the money sent out of the country in payment of oil and mining stock of this kind will never return, and that a reputable newspaper could therefore not afford to sell its space to such companies.—Saturday Night.

Most people waste a lot of valuable time telling their troubles to other people, who are not even interested.

Dread of Asthma makes countless thousands miserable. Night after night the attacks return and even when brief respite is given the mind is still in torment from continual anticipation. Dr. J. D. Kellogg's Asthma Remedy changes all this. Relief comes, and at once, while future attacks are ward off, leaving the afflicted one in a state of peace and happiness he once believed he could never enjoy. Inexpensive and sold almost everywhere.

A consignment of live quail from Spokane has been received by the Provincial Game Board, for release in the uplands district. The birds were given in exchange for Montanan pheasants. Another consignment is expected from the Eastern States in exchange for pheasants.

A Convincing Argument.
"What's this?" said John Smith, as he came upon his wife's new sewing machine knee deep in a snow drift.
"Oh, I just put it out there to keep your mower company," replied his wife.

Cut the first crop of alfalfa when starting to bloom.
The value of the motor truck as an aid in marketing farm products is now well established. In bringing this about improved roads have been an essential factor.
