

BUY A SEPARATOR UNTIL YOU HAVE SEEN THE

EXAMINE

The simplicity of the design. All wheels and bearings protected, being perfectly safe in the hands of a child.

It has anti-friction ball bearings. Few parts to wash—only two pieces inside the bowl.

The National is made by The Raymond Mfg. Co. of Guelph, whose success with the celebrated Raymond Sewing Machine is sufficient guarantee of the high finish and workmanship.

In 1901 five machines a day were manufactured. For 1902 the capacity is increased to 25 machines per day, showing the satisfaction given by the National in the past two years.

The 1902 National contains all the strong points found in other separators, and is placed on the market with the guarantee of being the best and most up-to-date machine in every particular offered to the Western farmers to-day.

The National will well repay investigation by intending purchasers. National No. 1, capacity 330 to 350 lbs. per hour.

National No. 1 A, capacity 450 to 500 lbs. per hour. AGENTS WANTED IN UNREPRESENTED DISTRICTS.

Cement

E have reduced our prices, and are prepared to demonstrate that no better value for the money is obtainable anywhere. All work done with our cement according to our instructions is guaranteed to be absolutely perfect. A barrel of Queenston Cement, though weighing less, contains just as many cubic inches of cement as any barrel of Portland. In mixing concrete, the cement is gauged by measure, not by weight. Farmers and others will do well to remember this fact, and not be misled by false statements. Write me, or see my agents, for full particulars.

Isaac Usher,

QUEENSTON, ONT.

NOTICES.

A GOOD THRESHING OUTFIT.—
The Belle City Manufacturing Co., of Racine Jct., Wis., send us a fine photoprint showing one of their justly popular threshing outfits, with Case engine, as in actual operation in the Northwest. It is a compact, businesslike machine that appears to be doing most efficient service in the busy threshing season. Our readers would do well to make enquiries therefor.

A DESTRABLE 200-ACRE FARM, a couple of miles from Ottawa, Ont., is offered for sale elsewhere in this issue. Look it up.

TEA IMPORTATIONS—It is notable that the shipments of Japan tea to Canada for 1902 were 6,730,495 lbs., as against 11.667.757 lbs. in 1899. This is a falling off of nearly six million pounds in three years. In the meantime "Salada" Ceylon green tea is rapidly taking its place.

greatest bargain in a nign grade long distance rand diams even locate to make them.

When they are gone it will be impossible to get a glass of any, Order to-day.

JOHNSTON & CO., BOX 3327, TORONT

International **Importing**

J. B. HOGATE, Proprietor. IMPORTER OF

Clydesdale and Shire Stallions, and Spanish Jacks.

My third importation within the last fourteen months arrived Sept. 4th.

Sarnia,

I select every one myself, and it is conceded both in Europe and America that I do get the best ones that cross the Atlantic to America. My stallions are sired by the leading sires of Scotland; ages from two to four years. The Jacks are direct from Spain, and registered, two to four years old, 141 to 151 hands high. I pay cash for my stock. I buy where I can get the best. Write for particulars.
