

CANADIAN ARMY

England from 1914. Not content
with having fought the Germans he
volunteered for the 7th Canadian
fully expecting to have fought
by. Since coming back to his
position of Military Centre. As a result
of the fact that he had time to get
back to general general management
and the business knowledge that
will. Hence, business - off feeling
since the reason I offer you is
now for the ~~business~~ reason is
the natural tendency for anyone to
get out and tired of being pushed
around. It is only fair that
anyone who has served 2 years in
a theatre of war - fighting and then
returning for service in another war
is entitled to the most consideration
and leniency. I am, Charles H.
