James Wade, Esq.  
c/o Irving Company Limited,  
Saint John, N.B.

Dear Sir:

1. We understood from you recently that you were taking your Grumman Goose CF-BZY to Charlottetown, P.E.I. for an engine change, and we were further advised that same was in Charlottetown, that work was in progress and that you would advise us when you would be ready for inspection.
2. We are now informed that you have flown this aircraft away from Charlottetown to a point unknown to this office which is an infraction of Air Regulations, insofar as this flight was undertaken without a ferry permit and naturally without a Certificate of Airworthiness.
3. Your reasons for the above would be appreciated at your earliest convenience.

Yours truly,

L. Knight,  
for District Inspector, Air Regulations.
