

Pleurisies (continued)

- Diagnosis of, I. 704-5
- Drainage methods in, I. 710-11
- Exploratory puncture in, I. 704-5
- Irrigation in, I. 712
- Modes of termination in, I. 704
- Pleurotomy in, I. 707-8
- Resection of the ribs in, I. 709, 710
- Simple incision in, I. 709
- Typical cases of, I. 712
- WITH SMALL EFFUSION, I. 685-89
 - Antipyretics in, I. 688
 - Aperients in, I. 648, 688
 - Calomel in, I. 688
 - Counter-irritation in, I. 687
 - Diet in, I. 687
 - Dinretics in, I. 687
 - Iodine in, I. 687
 - Leeches in, I. 648
 - Opium in, I. 686
 - Tonics in, I. 688
- See also Additional Formulæ, I. 714

Pleuritis, II. 66-67

- Anodyne liniments in, II. 66
- Chest-strapping in, II. 66
- Counter-irritation in, II. 66
- Effusions in, II. 67
- Quinine in, II. 67

Pleurodynia. See Rheumatism,

Chronic muscular, II. 460-64

Pneumatic treatment of asthma, I. 614

- of chronic bronchial catarrh, I. 592
- of phthisis, I. 632-33

Pneumonia, Acute lobar, I. 634-67

- Aconite and aconitine in, I. 648
- Alcohol in, I. 659, 660, 662-64
- Ammonium carbonate in, I. 656, 660
- Antipyrin in, I. 654
- Antiseptic agents in, I. 649-50
- Blood-letting in, I. 656
- Caffeine in, I. 664
- Cardiac failure in, I. 661-665
- Causation of, I. 637-41
- Change of air in, I. 667
- Climatic and atmospheric influences in, I. 638
- Cold bath in, I. 651-52, 658
- Cold water in, I. 662
- Convalescence in, I. 666-67
- Cough in, I. 659-60
- Counter-irritation in, I. 666
- Delirium in, I. 658-59
- Diarrhoea in, I. 661
- Diet in, I. 661-62, 666
- Digitals in, I. 653, 654, 656
- Disinfection in, I. 665
- Dry-cupping in, I. 658

Pneumonia, Acute lobar (continued)

- Dyspnoea in, I. 656
 - Ether in, I. 656, 658, 664
 - "Expectant" method in, I. 644
 - Gastric catarrh in, I. 660-61
 - Hypodermoclysis, I. 665
 - Ice-bags in, I. 652-53, 656, 658
 - Indications for treatment of, I. 641
 - Inhalation of oxygen in, I. 657
 - Inhalation of turpentine in, I. 649-50
 - Lack of ventilation in, I. 638-39
 - Leeches in, I. 655
 - Morphine in, I. 655, 658, 659
 - Mouth-washes in, I. 666
 - Musk in, I. 659
 - Nervous form of, I. 658
 - Open-air treatment of, I. 642
 - Pain in, I. 655
 - Phenacetin in, I. 654
 - Physical signs in, I. 636
 - Pyrexia in, I. 646-49, 650-51
 - Quinine in, I. 645-48, 648-49
 - Sleeplessness in, I. 659
 - Sodium salicylate in, I. 655, 665
 - Specific germ in the causation of, I. 640-41
 - Specific serum in, I. 643
 - Stages in, I. 336
 - Strumous cases of, I. 660
 - Strychnine in, I. 655, 657
 - Symptoms of, I. 635-36, 637
 - Tartar emetic in, I. 660
 - Typical cases of, I. 646
 - Vaccinotherapy in, I. 643-44
 - Venesection in, I. 664
 - Vomiting in, I. 661, 662
 - See also Additional Formulæ, I. 679, 680
- Pneumonia, Bilious, I. 660**
- Pneumonia, Broncho-, catarrhal, or lobular, I. 667-79**
- Alcoholic stimulation in, I. 676
 - Anatomical lesions in, I. 668
 - Apomorphine in, I. 671
 - Arsenic in, I. 677
 - Benzoate of soda in, I. 671
 - Calomel in, I. 675
 - Cardiac stimulants in, I. 676
 - Causation of, I. 667
 - Cod-liver oil in, I. 677
 - Cold affusion in, I. 675
 - Cold bath in, I. 674
 - Convalescence in, I. 669, 677-78
 - Cough in, I. 669, 672
 - Course of, I. 668
 - Diarrhoea in, I. 669, 675
 - Diet in, I. 677
 - Emetics in, I. 671
 - Expectorant remedies in, I. 673
 - Exudation into the air-cells in, I. 668
