

## Why Experiment?

YOU want profits—not losses—in return for the time, labor and expense invested in YOUR dairy. Don't you? Then—Why Experiment?

YOU will admit that the most butter from YOUR dairy, of the best quality, means the greatest profits. Then—Why Experiment?

YOU cannot afford to invest YOUR capital, time and labor in any but the most practical dairy methods. Then—Why Experiment?

YOU have the choice; the most butter of the best quality, or less butter, and quality a costly uncertainty. Why Experiment?

YOU KNOW what YOUR choice should be. Why Experiment?

## The IMPROVED U.S. Cream Separator

will save YOU the long, unsatisfactory and costly experience which experiments always involve. It will place YOU immediately in command of the two winning points in the dairy business: quality and quantity.

### Quality

Every highest score on Dairy Butter in each of the four great butter scoring contests at the WORLD'S FAIR, ST. LOUIS, 1904, including **The Sweepstakes** in the Dairy Class, was awarded to the product of the U.S. CREAM SEPARATOR against the world. "U. S." Quality Wins.

### Quantity

The U.S. Cream Separator still continues to hold **world's record** as the closest skimming separator in the world—saves cream every day that other separators would lose.

Substantial and simple—extremely durable—proven by many years of satisfactory service. No joints to work loose, no ratchet pin to break off, no exposed gears to be injured—no repairs.

Perfect adjustment of working parts—no oil wasted. Easy to operate. You can't make your cows pay you as they should without a U. S. Cream Separator—the best money-maker on the farm.

## Now DON'T Experiment

Write for Free Illustrated Catalogue To-day.

VERMONT FARM MACHINE CO., Bellows Falls, Vt.
