Make Big Money Year After Year In Your Own County

Practically every farm in your territory needs draining. The owners will pay well for the work. You can ditch ten times quicker with a Buckeye than by hand and can make more money than you'd make on 100 acres of good land.

Turn your spare time into money with the

"A Perfect Trench at One Cut" **BUCKEYE** Traction Ditcher

It cuts ditches of different widths and depths, through any soil. Ditch in perfect grade all ready for tiling. Operates under its own power and two men can operate.

The Buckeye has proved itself equal to every test and a money maker for its owners. Many are finding it even more profitable than farming.

Pays Better Than 100 Acres

"I certainly think the Buckeye Traction Ditcher is O. K. or I would not have bought my sixth one. We have dug from 30 to 300 rods in 10 hrs. according to soil and depth. We consider 120 rods an average day's work. A man can make more money with a Buckeye than with the best 100 acres I know of."—C. C. Mann, Washington C. H., Ohio.

"My net earnings with the Buckeye in 84 days were \$1,902. The treatment and service your company has given me is all that any fair minded man could ask."—Ed Uvaas, Larsen, Wis.
