

Coffee Icing

Cook two cups of Lantic Sugar with half a cup of strong coffee until the syrup forms a soft ball when dropped in cold water. Add a teaspoonful of vanilla extract and beat until cold enough to spread.

Lantic Sugar

"The All-Purpose Sugar"

is specially good for cake baking on account of the fine granulation.

ganization the object of which shall be to put the whole district at school, and to boss me in my work for the whole district."

"Dat sounds good," cried Haakon Peterson. "Ve'll do dat!"

"Then I want you to work out a building scheme for the school," Jim went on. "We want a place where the girls can learn to cook, keep house, take care of babies, sew and learn to be wives and mothers. We want a place in which Mrs. Hansen can come to show them how to cure meat—she's the best hand at that in the county—where Mrs. Bonner can teach them to make bread and pastry—she ought to be given a doctor's degree for that—where Mrs. Woodruff can teach them the cooking of turkeys, Mrs. Peterson the way to give the family a balanced ration, and Mrs. Simms induct them into the mysteries of weaving rag rugs and making jellies and preserves—you can all learn these things from her. There's somebody right in this neighborhood able to teach anything the young people want to learn.

"And I want a physician here once in a while to examine the children as to their health, and a dentist to look after their teeth and teach them how to care for them. Also an oculist to examine their eyes. And when Bettina Hansen comes home from the hospital a trained nurse, I want her to have a job as visiting nurse right here in the Woodruff District.

"I want a counting-room for the keeping of the farm accounts and the record of our observation in farming. I want co-operation in letting us have these account

"I want some manual training equipment for the wood-working and metal working, and a blacksmith and wagon shop, in which the boys may learn to shoe horses, repair tools, design buildings, and practise the best agricultural engineering. So I want a blacksmith and handyman with tools regularly on the job—and he'll more than pay his way. I want some land for actual farming. I want to do work in poultry according to the most modern breeding discoveries, and I want co-operation in that, and a poultry plant somewhere in the district.

"I want a laboratory in which we can work on seeds, pests, soils, feeds and the like. For the education of your children must come out of these things.

"I want these things because they are necessary if we are to get the culture out of life we should get—and nobody gets culture out of any sort of school—they get it out of life, or they don't get it at all.

"So I want you to build as freely for your school as for your cattle and horses and hogs.

"The school I ask for will make each of you more money than the taxes it will require would make if invested in your farm equipment. If you are not convinced of this, don't bother with me any longer. But the money the school will make for you—this new kind of rural school—will be as nothing to the social life which will grow up—a social life which will make necessary an assembly-room, which will be the social center, and the business center of the countryside.

"I want all these things, and more. But I don't expect them all at once. I know that this district is too small to do all of them, and therefore, I am going to tell you of another want which will tempt you to think that I am crazy. I want a bigger district—one that will give us the financial strength to carry out the program I have sketched. This may be a presumptuous thing for me to propose; but the whole situation here to-night is presumptuous on my part, I fear. If you think so, let me go; but if you don't, please keep this meeting together in a permanent organization of grown-up members of the Woodruff school, and by pulling together, you can do these things—all of them—and many more—and you'll make the Woodruff District a good place to live in and die in—and I shall be proud to live and die in it at your service, as the neighborhood's hired man!"

As Jim sat down there was a hush in the crowded room, as if the people were dazed at his assurance. There was no applause, until Jennie Woodruff, now seen by Jim for the first time over next the blackboard, clapped her gloved hands together and started it; then it swept out through the windows in a storm. The dust rose from stamping feet until the kerosene lamps were dimmed by it. And as the noise subsided, Jim saw standing in front of the stooped form of B. B. Hamm, one of the most prosperous men in this district.

"Mr. Chairman—Ezra Bronson," he

"I'm mighty glad I got this Book"

"I was a little skeptical when I read the ads describing it. I doubted—did not think there COULD be a book so valuable as it was claimed to be.

"But now I have the book I find that it is actually possible for me, by following its directions, to greatly increase the value of my farm. The claims made for the book are fully justified.

"In my spare time I have already built several of the Concrete Improvements so clearly described in 'WHAT THE FARMER CAN DO WITH CONCRETE.' And I'm going to build some more of them this spring. I've only spent a few dollars for cement, sand and gravel—yet I figure my property is worth several hundred dollars more than it was worth before I learned the use I could make of Concrete."

"My advice would be to write without delay and get a copy of this remarkable book. If the Canada Cement Company charged a dollar for it, no farmer should begrudge the money. But they don't—they send it free to anyone who writes for it."

Spraying for Profit, Cleaner Fruit and More Potatoes

Pump only

Potato Sprayer Attachment

Sprays four rows of potatoes or other row crops as fast as a horse walks. Easily attached to any barrel outfit. Nozzles can be adjusted to rows from 22 to 40 inches apart. Thus your Aylmer outfit can be used not only for spraying fruit, but for all row crops as well. These Aylmer pumps will apply whitewash or disinfectant rapidly, and drive it into every crack. There should be an Aylmer barrel sprayer on every farm.

Write for our illustrated catalogue which explains the size, capacity and equipment of Aylmer Sprayers.

The Aylmer Pump & Scale Co., Ltd.
16 Water Street, - - Aylmer, Ontario

Also makers of Aylmer Water Supply Systems which are the Standard of Canada.

This Aylmer spray-pump can be purchased separately or mounted as shown below. The pump is the same in either case.
