

WINDSOR DAIRY SALT

Is The Cheapest You Can Use

not alone, because it is the purest and best salt for salting butter. But because it will salt more butter, pound for pound, than any other salt you can use.

The big creameries will tell you this—and show you tests to prove it. The Agricultural Colleges demonstrate this every day.

Every farmer and dairyman—who is getting good prices for butter—is using Windsor Dairy Salt.

It is pure—it makes beautiful butter—it works in quickly—and it is the cheapest in the end. Just try it yourself.

700

No matter how old the horse, how lame the horse, or how many doctors have tried and failed, use

Fleming's Spavin and Ringbone Paste
Use it under our guarantee—your money refunded if it doesn't make the horse go sound. Most cases cured by a single 6-minute application—occasionally two required. Cures Bone Spavin, Ringbone and Sidebone, new and old cases alike. Write for detailed information and a free copy of Fleming's Vest-Pocket Veterinary Adviser.

Twenty-six pages, handsomely bound, indexed and illustrated. Covers over one hundred veterinary subjects. Read this book before you treat any kind of lameness in horses. FLEMING BROS., Chemists, 75 Church Street, Toronto, Ont.

AGENTS \$3 a Day

NEW PATENTED AUTOMATIC CURRY COMB

LAST CALL FOR A. H. TEEPLE'S HOLSTEIN SALE.

The extent and rapidly-increasing value and importance of the dairying industry of this country is an absolute guarantee that no possible mistake can be made in the purchase of profitable dairy cows, and as the cost of raising and maturing a grade is equal to the cost of raising and maturing a pure-bred, and the difference in the purchase price of a good grade dairy cow and a pure-bred one is so small, it surely does not require a mathematician, with a big array of figures, to show the benefit in purchasing the pure-bred, and, as is well known, the most satisfactory place to get the pure-breds is at an absolute dispersion sale. Just such an opportunity will be presented at the big sale in Woodstock, Ont., when the well-balanced and high-class herd of A. H. Teeple will be sold. There are no culls in the lot, nor any with defects, and as they are all young, and bred from officially-backed sires and dams, the opportunity becomes the more attractive. The date is Tuesday, March 11th, in the city of Woodstock.

HILLCREST AYRSHIRES.

A flying visit to the well-arranged stock farm, Hillcrest, the property of F. H. Harris, of Mount Elgin, Ont., a few miles from the town of Ingersoll, by a representative of "The Farmer's Advocate," brought a surprise on inspection of the large and well-balanced herd of Ayrshire cattle. It has seldom been the privilege of the writer to see so much evidence of uniformity of type and constitutional vigor manifest throughout a whole herd, and coupled with this was unmistakable evidence of big production in their large, well-formed udders, and deep, heavy, hind quarters, conforming strictly to the ideal wedge shape, and withal the breeding was representative of several of the most noted and richly-bred bulls of the breed in this country, notably Hillhouse Bonnie Scotland, Gold Mine, White Prince of Menie, Lochnagar, Queen's Messenger of Springhill, Royal Scot, and Scottie, the latter with eleven R. O. P. daughters, the younger ones being daughters of Bobby Burns, Silver King, whose dam, Bonnie Bell, gave 75 lbs. of milk a day, and Advance, a son of the late world's champion, Jean Armour, whose R. O. P. is 20,174 lbs. milk, those under a year being got by the present stock bull, Ivanhoe of Tangiwyld, a son of the ex-world's champion, with a R. O. P. of 16,195 lbs. milk. This is surely intense breeding, on lines of milk production, and that this kind of breeding is bearing fruit is evidenced by the production of the herd, which, for mature cows, varies from 40 to 60 lbs. a day, and up to 49½ lbs. for two-year-olds. Special mention might be made of four remarkably fine heifers, rising three years of age, cousins of the world's champion two-year-old, Briery of Springbank 2nd. One of them, now in milk for the second time, is giving 47 lbs. a day, on an average; 6,000 lbs. per year for two-year-olds; 7,000 lbs. for three-year-olds, and 8,000 lbs. for mature cows, is the standard set by Mr. Harris, and any cow or heifer not reaching those marks gets a short shift. Needless to say, there are none in the herd but will go away over those figures. In young bulls, there is only one left, and he is only three months old, but he is a proper good one, sired by the stock bull, and out of a two-year-old heifer that now, three months after calving, is giving 30 lbs. a day. Anything in the herd is for sale. There are something over 40 heifers that are an exceptionally choice lot, and their rich breeding make them most attractive. Mr. Harris reports a big demand, and sales to Alberta, Saskatchewan, Quebec, United States and all over Ontario. He is also paying considerable attention to Clydesdales, and has in breeding four very choice registered mares, one of them imported, the others from imported sire and dam.

The Results At The Kerwood Cheese Factory

EVERY week or so we receive letters from creameries and cheese and butter factories, reporting tests made with the STANDARD Cream Separator. For example, the Kerwood Cheese and Butter Factory reports as follows on tests made October 29, 1912:

Test No.	Percentage of butter-fat in cream.	In skim milk.
1	36	.02
2	43.5	.02
3	45	.03

In each of the above tests the milk was fed to the machine at the rate of 684 lbs. per hour (machine listed at 600 lbs.) and the bowl was flushed, and when taken apart was free from cream and in good condition. The milk skimmed was not new milk, but had been kept over, some of it two days old. You will note by the above figures that the milk was fed to the machine nearly 100 lbs. per hour faster than its rated capacity, and that the cream skimmed contained a high per cent. of butter-fat, so that I consider the work done in this test exceptionally good.

(Signed) W. WADDELL, Proprietor Kerwood Cheese and Butter Factory.

The above test again emphasizes the superiority of the STANDARD in close skimming. Even old milk, fast-skimming and heavy rich cream did not prevent the STANDARD from skimming closer than other separators do under most favorable conditions. Figure it out. It will pay you to discard your old machine and get a "STANDARD," and do it now. There is no other that can give you equal results, and it's results that count. Send for descriptive catalogue.

MAKE THE HORSE GLAD AND EAGER FOR WORK

The way to do it is to clip him before you put him at the spring work. Take off his winter coat that holds the wet sweat and dirt. He'll get more good from his feed, look better, rest better and give you better service. The best and most generally used clipper is the

Stewart Ball Bearing Clipping Machine

It turns easy, clips fast and stays sharp. Gears are all file hard and cut from solid steel bar. They are enclosed, protected and run in oil; little friction, little wear. Has six feet of new style easy running flexible shaft and the celebrated Stewart single tension clipping head, highest grade. Get one from your dealer or send \$2.00 and we will ship C. O. D. for balance. Money back if not satisfied.

Chicago Flaming Shaft Co., 110 LaSalle Ave. Write for my new catalogue showing complete line of Horse Clipping and Sheep Shearing Machines.

CLIP ALL THE WOOL YOU LOSE \$120 ON 6 SHEEP BY THE OLD METHOD

You know the size of your flock—figure how much more money you'll get if you use a Stewart No. 9 Ball Bearing Shearing Machine.

It's the most perfect hand operated shearing machine ever devised. Has ball bearings in every part where friction or wear occurs. Has a ball bearing shearing head of the latest improved Stewart pattern. Price complete, including a comb and 4 cutters of the celebrated Stewart quality is only \$15.75. Get one from your dealer, or send \$2.00 and we will ship C. O. D. for balance. Money and transport charges back if not satisfied.

COUNT THE DOLLARS IN YOUR TREES

Go over to the wood lot and size up your trees. Every 16-foot log averaging 14 inches thick will make 100 feet of good lumber. Ten such logs make 1000 feet of lumber worth from \$18 to \$20 (our book tells.) An "American" Saw Mill will saw them at a cost of \$4 to \$6 per 1000 feet. You have the teams, the time and the engine. It will pay to get the dollars out of those trees. You can do it for your neighbors, too—more profit for you. And you need an "American" Mill—so simple anyone can run it, so strong it lasts for years. An 8 H. P. engine will cut up to 2500 feet per day. Farm lumbering is explained in our new book No. 32 Sent free. Ask our nearest office. **AMERICAN SAW MILL MACHINERY CO.** Makers of Standard Saw Mills of any size or capacity. 113 Hope St., Hackettstown, N. J. Chicago 1544 Terminal Building, New York Savannah—New Orleans

I Have SHORTHORN Bulls and Heifers, SHROPSHIRE and COTSWOLD Rams and Ewes, CLYDESDALE Fillies and Colts

that are as good as I have ever had, and that I will sell for prices within the reach of all. We have been in the business 75 years, always in the front rank, and propose to keep that position. You cannot afford to buy without writing us for prices. **ROBERT MILLER, STOUFFVILLE, ONTARIO**

Springhurst Shorthorns

Four of the first-prize Shorthorns at the late Guelph show, including the champion and grand champion fat head of the champion-producing breeding. I have now for sale ten young herd Exeter Station. Long-distance phone. **HARRY SMITH, HAY P. O., ONT.**

Shorthorns—Records show that cattle bought from the Salem herd won numerous ribbons the past season. We have others. Several young bulls are priced reasonably. Elora G. F. R. and G. P. R.
