for the principal.

Street, New York,

THE WAR IN EGYPT.

At five o'clock in the afternoon of Jan. 9th, the citizens of Kingston were shocked by the intelligence that masters PLENARY COUNCIL OF BALTIMORE shocked by the intelligence that masters George Morrison, aged 12, fourth son of the late Michael Morrison, flour and grain merchant, and John Rigney, aged 11 years, second son of W. Rigney, grocer, had been drowned while skating. At four o'clock that afternoon George Morrison and John Rigney, accompanied by Timothy and James Rigney, left the Brothers' school, and, meeting another little boy named Charlie McKay, hur-ried to the toot of Barrick street, put on their skates and started for the opposite shore. The ice had been weakened by Composed of 80 Archbishops, Bishops and Officers, was photographed for the express purpose of being presented as a souvenir to His Holiness Pope Leo XIL, at an expense of over \$2000.00. The likeness of each one (with name printed on the large ones) being perfect and a great triumph of the art. It is mounted on the best card board and pub-lished in four sizes, as follows :--12 inches long, \$1.00, 18 inches long, \$2 00, 28 10 5.00. Also groups of the Archbishops and Bishops of different Provinces, same sizes and prices as above, and singly, including Archbishop Lynch, who was visiting the Council. THOMAS D. EGAN

their skates and started for the opposite shore. The ice had been weakened by a thaw the previous day, but the little fellows, all unconscious of danger, flew merrily along, till reaching a place where the ice was never very strong, there was a crash, and J. Rigney was struggling in the water. George Morrison and Charlie McKay went to his assist-ance, but the ice would not hold them, and all three went in. By this time John and James Rigney skated out and also plunged in. The five boys struggled desperately and James Rigney and Charlie McKay managed to crawl out and charle McKay managed to crawl out and started for assistance. The three boys still in the water were discovered New York Catholic Agency, 42 Barclay This agency supplies goods of any descrip-tion required, and attends to any personal or business matters where an agent can act AN IMPORTANT BATTLE-STEWART boys still in the water were discovered

WoUNDED. The London News correspondent gives the following account of the battle of the 17th. Gen. Stewart, hoping to surprise the and every means employed to recover the bodies, and shortly they were discovered, twelve feet from where they went in, No pen could describe the grief of the mothers behold. enemy, left Abu Klea wells on Saturday afternoon, and marched through the entire night, sighting the river at day. break. The rebels were gathered on the banks within an hour's march. The ing the dead bodies of the bright little boys who left them such a short time before so full of life and spirit. The British were burning to make an attack, but were anxious to save men after their long march without food. The rebels advanced and opened fire on our front, right and left, and until long past mid-day continued to assail us with a perfect funeral took place on Sunday 11th, from Johnston street, where both boys Johnston street, where both boys reside not twenty-five yards apart, and the corteges were the larg-est that ever moved along the streets of Kingston. Throngs crowded the streets and up to the time of the funeral the bodies were viewed by hun-dreds. Boys who had been companions in life acted as pall-bearers, and behind the heaves the boys of the Brothers' storm of bullets. In spite of the con-tinuous fire, comparatively few British were wounded. Stewart was wounded early in action. Having strengthened their position and repulsed all attacks e square advanced over the slopes ader a withering fire. Three times the the hearse the boys of the Brothers school walked, wearing white rosettes with rebel horse and foot attempted to make a charge, but were mowed down. The rebels splendidly sustained our fire. At black centres, At St. Mary's Cathedral the altar was draped in black and the children of St. Mary of the Lake, Conlast the square reached the river bank, and fortified one of the villages. The route lay through a dense jungle and groves of mimosa, where the confusion and uproar of the native drivers delayed vent de Notre Dame, St. John's, and St. Joseph's, were assembled. After the tap route lay through a dense junge and groves of mimoss, where the confusion and uproar of the native drivers delayed progress and put the enemy on the alert. The rebels, concealed in tall grass, kept up a galling fire. The British were gradually worn out, being exposed as tar-gets, and unable to strike back. Steward's wounds delayed the counter attack of the square until two o'clock in the afternoon. Rebel riflemen possessed the heights, while their horsemen closed the roads in the rear. As the square moved slowly from the zareba all felt that their fate depended upon its steadiness.; When the square stopped the men lay down and delivered volley after volley with superb steadiness. At last the critical moment came. Rebel spearmen advanced in thurl themselves against the little square. The British never wavered a moment. They cheered lustly and delivered in con-fusion. Another dense mass of rebels from the south was stopped by shells hurl themselves against the little square. The British never wavered a moment. They cheered lustily and delivered fire so deadly that the Arabs dropped in a line, which recoiled and retired in con-fusion. Another dense mass of rebels

CHAPMAN'S, 91 Dundas st., London, ment of the finances of the company will be found annexed. It will be seen, by reference to the capital account, that That religion which allows a man to read a religious paper two or three years, with great satisfaction, and then refue to pay for it because he did not order it renewed, is worse than that practiced by the hea-then. We have a few of that class on our list, some of whom profess sanctification. -Exchange Ditto.

but write off each year all balances on such, even although, as this year's cash account shows, considerable sums are realized from these sources. Our avail-able premium notes now reach the large sum of 8249,395 34.

sum of \$249,395 34. Investments—During the year your Board purchased and deposited with the Government the sum of \$32,520 in muni-cipal debentures of the city of Hamilton and the city of St. Thomas. These debentures are held by the Receiver-General of Canada, on deposit for the eccurity of the numbers. They were security of the members. They were purchased at such a price as will yield the company at the rate of about 5] per cent. per annum on the investment—a better rate than was formerly afforded us from the Dominion Stock, which latterly only yielded 5 per cent. This investment will be free from any municipal tax, certainly a consideration, for the municipality of London, in our opin-ion, most unjustly assessed the current cash of the company (held merely as an advance fund to provide for the ordinary advance fund to provide for the ordinary loss requirements of the year), and we appealed to His Honor, the Judge of the County Court, who sustained the prin-ciple of our appeal, so that hereafter such funds cannot be assessed. How ever, last year the Government called in their 5 per cent. bonds, and we were obliged, awaiting an investment that would be satisfactory to the Govern-ment, to deposit the money derived from the bonds in a chartered bank. On the trial of the appeal this fact came from the bonds in a chartered bank. On the trial of the appeal this fact came out, and the counsel for the city, taking advantage of a clause in the assessment act, procured an amendment by the Judge, and we were mulcted in \$600 odd. However, as before stated, such a coup campat be perpetrated on us again coup cannot be perpetrated on us again, and our city rulers must look elsewhere for victims to relieve their impecunios-

ity. Legislation.—No action has as yet been Legislation.—No action has as yet been taken by the Legislature in regard to controlling the working of steam thresh-ing engines, and although we have suf-fered but slightly this year, yet the loss through the country has been consider-able. As suggested in former reports, in the application former second able. As suggested in former reports, in the opinion of your directors, some simple and less expensive method than in use at present should be adopted for inquiring into the origin of suspicious fires, and further provision should be made for the registration of fires. This would form a useful source of statistic, and could be easily and simply worked

and could be easily and simply worked. Maritime Provinces—As intimated in our last annual report, the business of the company has been extended to the Maritime Provinces. The directors se-cured the valuable services of Thomas Paparters Fac M B of Barnister cured the valuable services of Thomas Robertson, Esq., M. P., of Barrington, N. S., under whose personal supervision a staff of agents has been appointed who promise to be of great assistance to the company. The business already done in the East has been, on the whole, sat-isfactory, and quite as large as your directors anticipated. The utmost care has been taken in the selection of risks, and we look forward to an increasing and we look forward to an increasing and profitable business, and the arrange ments made are such that the extra ex pense of doing business shall not tax the general resources of the company, but shall be borne by the maritime members themselves. Insurances have already been effected to the extent of \$910,235 and in addition to that done by Mr. Robertson has been procured through the exertions of Mr. I. E. Murray, of the exercions of Mr. I. E. Murray, of Penobsquis, N. B.; Mr. James Reid, of Woodstock, N. B.; Mr. James R. Mac-lean, M. P. P., of Souris, P. E. I; Mr. R. B. Dorling, of Lawrencetown, N. S.; Mr. J. B. Harlow, of Caledonia, N. S.; T. B.

ciples, its success was at a very early day assured. It has continued the business companies, who, in order to secure the commission, made use of their position to place the borrowers' insurance in their own offices. Still, the larger and more respectpolicies, and our business relations with them have been of the most pleasant character. By keeping the rates at fair figures, by paying all honest losses promptly, fully investigating each loss, and insisting on personal inspection by the agents of each risk, your Board trust that the past success of the com-nary is merely an index of the future. that never, a quarter of a century formed, now over a quarter of a century ago, have they been able to present a better statement of the progress and financial affairs of the company than on the present occasion. show. Again, your directors cannot close their report without bearing testi-mony to the earnest endeavors of the will be reduce to the capital account, that by reference to the capital account, that the available assets of the company have increased from \$331,74152 at the end of 1883, to the sum of \$365,54132, on the tot December, 1884, and the reserve the loyalty of the agents to the interests of the company has ever been a cause of 1883, to the sum of \$365,541 32, on 31st of December, 1884, and the reserve fund for remsurance is now \$269,659 84, as compared with \$242,998 31 at the last annual statement. It may be observed in this connection that we never carry forward and show as assets any premium notes, excepting those on living policies,

A THRILLING EXPERIENCE! Three directors retire by rotation. They are, Jas. Armstrong, Yarmouth; John Hodgson, Tilsonburg, and James Grant, Arva, who are eligible for re-elec-REMARKABLE STATEMENT OF PERSONAL DANGER AND PROVIDENTIAL ESCAPE.

All of which is respectfully submitted. D. C. MACDONALD, JAS. ARMSTRONG, Secretary. President. Secretary. CASH ACCOUNT.

The following story—which is attract-ing wide attention from the press—is so remarkable that we cannot excuse our-selves if we do not lay it before our readers, even though its length would ordinarily preclude its admission to our limited space. To the Editor Rochester (N. Y.) Democrat: SIR,—On the first day of June, 1881, I lay at my residence in this city sur-rounded by my friends and waiting for death. Heaven only knows the agony I then endured, for words can never des-cribe it. And yet, if a few years previous any one had told me that I was to be brought so low, and by so terrible a dis-ease, I should have scoffed at the idea. I had always been uncommony strong and healthy, and had weighed over 200 pounds and hardly knew, in my own ex-perience, what pain or sickness was. Very many people who will read this statement realize at times that they are unusually tired and cannot account for it. They feel dull pains in various parts of the body and do not under-stand it. Or they are exceedingly hungry one day end entirely without appetite the next. This was just the way I felt when the relentless malady which had fastened itself upon me first, began. Still I thought nothing of it; that probably I had taken a cold which began. Still I thought nothing of it; that probably I had taken a cold which to take the step I have, and if I can suc-23,019 04 that probably I had taken a cold which would soon pass away. Shortly after this I noticed a heavy, and at times neu-ralgic, pain in one side of my head, but as it would come one day and be gone the next, I paid little attention to it. Then my stomach would get out of order and my food often failed to digest, caus-ing at imca great inconvenience. Yet.

Infer my somach wind get outgest, caus-ing at times great inconvenience. Yet, even as a physician, I did not think that these things meant anything serious. If ancied I was suffering from malaria and dotored myself accordingly. But I got no better. I next noticed a peculiar color and odor about the fluids I was passing—also that there were large quantities one day and very little the next, and that a persistent froth and sediment settled. And yet I did not realize my danger, for, indeed, seeing these symptoms continually, I finally became accustomed to them, and my suspicion was wholly disarmed by the fact that I had no pain in the affected organs or in their vicinity. Why I should have been so blind I cannot undebtored myself accordingly. But I got no better. I next noticed a peculiar 231 34 color and odor about the fluids I was passing—also that there were large 376 43 quantities one day and very little the next, and that a persistent froth and scum appeared upon the surface, and a sediment settled. And yet I did not realize the danger for indeed, seeing organs or in their vicinity. Why I should have been so blind I cannot un-

and the first interview in the interview in the interview interview

which time I was steadily growing worse. My condition had really become piti-able. The slight symptoms I at first experienced were developed into ter-rible and constant disorders. My weight had been reduced from 207 to 130 set and friends. I could retain no food on my stomach, and lived wholly by in-jections. I was a living mass of pain. My pulse was uncontrolable. In my stude the carpet, and prayed for death. Morphine had little or no effect in deadening the pain. For six days and reducing he sources and the death-premonitory hiccoughs constantly. He congratulated the company on making such a creditable Mr. Thos. Robertson, M. P., Barrington, N. S., seconded the adoption. He referred to the good foothold the company were getting in the Maritime Provinces, and said over 1,100 policies had been taken out there last year. He said the prospects were excellent for a further increase of business down there. The reports were then adopted. Mr. Richard Biddulph moved, and Mr. J. B. Lane seconded, a hearty vote of thanks to Mr. Robertson for his services in the Maritime Provinces. Messrs. John Hodgson, of Tilbury, J. Armstrong, Yarmouth, and Jas. Grant, Arva, retiring directors, were unanimously re-elected. A vote of thanks to the agents of the company was carried, the following gentle-men replying: Messrs. Campbell, Hossie, Grigg, and Butterfield. The meeting then adjourned. ELECTION OF OFFICERS. At a subsequent meeting of the Board of Directors, at which there were present Messrs. Angus Campbell, Appin; Daniel Black, London East; Josephen H. Marshall, ex-warden, London; Stephen White, Chat-

conversation Dr. Foote detailed to me the many remarkable cures of cases like my own which had come under his observation, by means of a remedy, which he urged me to try. As a practicing physician and a graduate of the schools, I derided the idea of any medicine out-eide the argular channels heing in the a derided the lates of any medicine out side the regular channels being in the least beneficial. So solicitous, however, was Dr. Foote, that I finally promised I would waive my prejudice. I began its use on the first day of June, 1881, and took it according to directions. At first it sickened me; but this I thought was 10.009 00 good sign for one in my debilitated con-dition. I continued to take it; the sickening sensation departed and I was finally able to retain food upon my stom-ach. In a few days I noticed a decided ach. In a few days I noticed a decided change for the better, as also did my wife and friends. My hiccoughs ceased and I experienced less pain than for-merly. I was cardinated at the BAKING merly. I was so rejoiced at this improved condition that, upon what I had believed but a few days before was my dying bed, vowed, in the presence of my family ad friends, should I recover I would both publicly and privately make known this remedy for the good of humanity, wherever and whenever I had an oppor-POWDER wherever and whenever I had an oppor-tunity, and this letter is in fulfilment of that yow. My improvement was con-stant from that time, and in less than three months I had gained twenty-six Absolutely Pure. This Bowder never varies. A marvel of purity, strengthand wholesomerses.
