THE FARMER

BRANTFORD

The Saw as equipped for is illustrated with. It is also sold equipped for sawing long pe the balance wheel being attached low down and out the way. Steel frame, strong and rigid; cast iron guard over blade; patented adjustable dust-proof oil boxes which never heat. Our Steel Frame Wood and Pole Saws have distinctive and important points of improvement over other makes. See the Cockshutt Agent before buying.

**MAPLE LEAF GRINDERS**

**Durable Rapid Efficient**

The production of many years of careful study and experimentation. No other grinder of the same size burr can grind so much as the "Maple Leaf." Regulated by shifting the stationary burr; provided with relief springs and breakable pin. Ball bearing at back end of shaft. The plates are all flexible and run true and even.

See the Cockshutt Agent or write direct for Saws, Grinders, Straw Cutters, Root Pulpers, etc.

## DOES YOUR NEIGHBOR BORROW

Your Copy of "The Farmer's Advocate and Home Journal?"

Tell him to subscribe himself. Tell him it is just as essential on the farm as the plow. Tell him that the information it contains on farm topics has been worth many dollars to you and will be to him. Tell him he should subscribe and keep every number for reference. Induce him to subscribe, secure his subscription and send it to us, and get some of the premiums we offer to those who send us new subscribers. Induce your neighbor to abandon

## THE BORROWING HABIT

The Farmer's Advocate, 14-16 Princess St., Winnipeg, Man.

### Take a Look at a Farm Fence Worth Building

Ideal is the recognized standard fence for Canadian Railways. Railroads build fences for permanence. Canadian farmers are buying more Ideal Fence to-day than any other make. They keep our two factories busy, turning out fence at the rate of 30 miles a day. You see this fence everywhere you go. You know there must be reasons. Just take a good look at it as shown above and read the argument for buying

## IDEAL FENCE

Looks strong, doesn't it? It is strong. It's made to last. All made of No. 9 hard steel wires, both horizontals and uprights. Heaviest fence wires used. It adjusts itself in extremes of temperature. That's why Ideal fence always stands up erect. The lock which is used at every intersection of wires is shown in lower left hand corner. Neither climbing over nor hornin', nor crowding, nor anything else can make the wires slip. It is not a fence that gets holes in so cattle and horses can poke their heads in and hogs root their way through. You can't tell about the galvanizing from looking at the picture but look at the fence itself for that. More heavily galvanized than any other. Easy to build, fits any surface, hilly or level

**Is the Argument sound?** People who have investigated it answer yes. That's why so many are buying it. Take a little time to think of the essentials of good fencing before you buy. The Ideal has all of them. We know you'll want Ideal when you know about it. Write for our book about fencing, FREE.
