ROMAN CATHOLIC.

& Fighting Press The following is quoted from the New Freman:-A great factor in America's progressive and aggressive Catholicity has been the growth of a fighting fear-nothing Catholic press, a press that will always and fearlessly speak the truth. It is a press that will denounce immoral theatricars, and lying anti-Catholic literature, and sham theories, and dangerous tend-

encies, no matter where advocated.

The right of private interpretation of the Gospel should logically made every man a preacher. This absurdity shows how correctly the Catholic system demands a recognized authority to explain the Bible and not to leave to the tender mercles of every and any self-placed expounder.

S., advocating that the Church of England affiliate with the Roman Catholic church and that the American Protestant Episcopal church follow suit.

There is residing in Londonderry, Ireland, a Presbyterian minister, the Rev. The one great drawback to the pleasure of the occasion was the absence of wife and mother, who had passed to the home above. This reunion was made the occasion of a notable celebration in the Second Glendermont Presbyterian church in Londonderry, over which the father has presided for forty-nine years. The entire parish and Presbyterians from far and wide participated. The parish itself joined in a memorial address to the veteran preacher, in which fitting testimony was pail to his long and honored service.

His lordship Bishop Richardson de- Occupant Hastens to Leave ivered two eloquent sermons in Trinity church yesterday. At the morning rvice he took for his text John 14:13, 'Whatsoever ye ask in my name that will I give ye." His lordship delivered a very able discourse on the problem of prayer and said that notwithstanding all laws we see about instances where prayer is the natural instinct of man. Prayer is not our will but the bending of our will to God's. All our prayer should be in God's name. At the evening service a large contook for his text, "The kingdom is like unto leaven which a woman took and hid in three measures of meal." He then showed the relation of this parable to the parable of the mustard seed. The latter showed the church is a visible society capable of vast extension. The parable of the leaven shows to Mr. Whitlock and a Morris rocker the church as an unseen spiritual power. His topic was The Leavening Power of Christ in Society, and show-

Rev. W. E. Matthews Praises Building

DELIVERS ADDRESS

Heard by a Large Number at New Institute Last Night

The auditorium of the Seamen's Institute was filled last night with a arge number of seamen to hear Rev. V. E. Matthews.

S. L. Garbell presided and there were on the platform Rev. C. Comben, DD. Morton Smith, Geo. A. Henderson and Rev. H. D. Marr. The choir of Queen Square Methodist Church were present to assist with the singing. During the opening exercises R. M. Smith sang Jesus Saviour Pilot Me," and an anhem was rendered by the choir. Rev. Mr. Matthews in opening referred to two texts; first: "The earth is the Lord's and the fulness thereof." and "The sea is His for He made it." He spoke of his experience in other places with seamen's institutes and told of how the Dover association se-

cured a splendid post office building worth £2,000 for £600 in answer to prayer. The motto used in that building is "The Lord has done great things for us." This he thought would be a good motto for the St. John institute. He spoke very highly of the building as it now stands and predicted that very soon they would have the upper story furnished. If this did not give them room enough they would be able to put another story on top. He urged the people connected with the institute to have faith that God would supply what funds they may need for the extension of the work.

Mr. Matthews then told of the plans for Tuesday evening, when the formal | the Rev. W. R. Robinson, B. A., B. D., opening of the building will take place Rev. W. F. Johnston Will at eight o'clock, and at nine o'clock there will be a concert by the men of the Empress of Britain. He said that the St. John building was the second best in Canada. ## **EVANGELIST CONVERTS** TWELVE AT TABERNACLE

A large audience attended the Taber-

nacle Church last evening to listen to Evangelist Williams, who entered upon he second week of his mission. The first part of the service was conducted by the pastor, Rev. J. W. Keirstead. Mr. Williams took his text from Dan. xii.: 3, and from this he deducted the theme, "Soul Winning." His discourse was addressed more particularly to Christians. He said souls could won by the power of example, the power of prayer, and by the power of estimony. The way to receive the richest blessing in one's own life is to communicate blessing to others. This what the text means when it says they that turn many to righteousness shall shine as the stars for ever and ever." Some by reason of the preeminence of their goodness will shine bay noticed a slight flicker as he was alone, while others will shine in clusters. Many of us may not gain this splendid isolation, but we can all shine with some degree of lustre and if we do this shining will be eternal. Large congregations were in attendance at both morning and evening services in Ludlow street, West End, Baptist church yesterday, the reason being the formal taking over of the work of the church by the new pastor, who arrived in the city Saturday. At the morning service the subject of Mr. Robinson's discourse was "Humility." He urged upon his hearers the necessity of true humbleness and appealed to them for united support in the pastorate he was now entering upon. Mr. Robinson held that the existence of cross purposes in the work forces to aid. Temperance principles of the church was inimical to progress should be taught early in

## GATHERING ATTENDED BY A LARGE NUMBER

Rev. W. Camp Addresses Thorne Lodge Yesterday on Temperance

There was a large audience at the Thorne Lodge meeting in Tabernacle Hall yesterday afternoon. M. A. Thorne presided and was assisted in exercises by J. A. Beyea and J. Thompson. A quartette consisting of Misses Beyen and Pattison and A. H. Pattison and R. D. Coggin renderéd a selection. St. Mary's orchestra assisted in the musi-

cal programme. Rev. W. Camp in his address took for his topic Can You Make a Man of Me? This was asked him by a drunken man. This question suggested others. Does a man lose his manhood through using strong drink? Can loss of his manhood be checked? Can there be restored to him the manhood he had lost? The speaker used illustrations of men like Rev. Francis Murphy, the evangelist, who had sunk to the lowest depths of degradation and distress. He showed how they had regained the manhood they had lost and were doing good and great work in the redeeming of men from the same position

He spoke of the ways in which the arunkard might be redeemed and the gratulation would be sent tomorrow to and could not be tolerated. He would should be kept before the people at all now be open for suggestions from any time. The great curse, the saloon, member of the congregation and he should be eliminated. Reforms like this must go on lessening the temptation to men. While reformation of laws and character were great forces in the social and religious world regeneration is the greatest. If a man can be led to believe in God's goodness and turn away from a life of drunkenness in His strength he will

always be kept from the evil. The speaker closed his remarks with an earnest appeal to the temperance and Christian people to continue in the work faithfully, to hold whatever gains they have made and to strive to make greater.

Rev. S. W. Anthony will address the meeting next Sunday.

At the Every Day Club last evening Rev. Dr. Raymond declared his strong approval of the effort to secure prohibition by wards, and stated that if the campaign were carried into the ward one of those to circulate the petitions. "I have lived in St. John for twentysay to you that there is more drinking among young men of seventeen to twenty-one years of age today than ever before in those years."

He declared further that he could see more drunken men of a Saturday afternoon between the other side of the Marsh and King Square than he saw during his three months' visit in England.
