ST. STEPHEN, N. B., July 2.-While two young men were repairing Jas. Last Saturday evening beer flowed somewhat freely there among some of the employees, and later one of the party, Arthur Graham, said to be a native of St. John, found himself alone in the woods back of the town. Two girls came along, about twelve years of age, and some very indecent conversation followed, though nothing else. On Monday the mother of one girl heard of the affair and the father had papers issued for the man. NORTH SYDNEY, N. S., July 4.-According to reports from the Grand Banks a new phase of the fisheries trouble has arisen that is likely to have serious consequences if persisted in. As is well known, a large fleet of fishing schooners from France annually come to the banks to engage in fishing, and as the problem of securing bait is frequently a serious one, the practice has been resorted to by a number of captains of these vessels, of boarding oth-Frank D. As yet no decision has been reached as to where the hall in memory of the late Mr. and Mrs. Charles Fawcett will be placed, so nothing definite is known in regard to the beginning of the erection of this building. Two sites have been proposed. One of these is on the ground standing at the corner of York and Landsdowne streets. The other is the site of the old Charles F. Allison house on York street.

Among the building which is being done for citizens is the erection of a house on Weldon street for Mr. A. H. McCready, the editor of the Post, who at one time made his home in St. John. This house, now nearing completion, is being built by the Sackville Wood-workers, Limited. The Woodworkers by Mr. George A. is putting up a nice dwelling for Mr. Clarence Griffin and will soon be ready has also put up a dwelling on the upper part of York street for Mr. J. Cooper. Another piece of work being done is the building of an extensive and handsome addition to the house recently purchased by Mr. Fred Ryan from Prof. Hammond. On Salem street, near the corner of York, Mr. Charles W. Fawcett will

shortly begin the erection of a dwelling house. This has been decided upon and it is quite probable that Mr. Fawcett will put up several others as well on property which he owns there. It is understood that the new industrial company, A. E. Wry, Limited, will also have a part in promoting the building boom in Sackville this year. This company, it is said, will put up a large wooden factory building on Lorne street during the summer or fall. The site is understood to have been secured already and a call for tenders may come in the near future. Another company which may do some building this year is the Sackville Paper Box tompany. All that this company will do, however, will be in the way of enlarging its factory on Main street and no nnouncement has yet been made as to its intentions.

From the informatics given in the foregoing paragraphs it will be seen that the town is going to have us fair share of building operations during the year. For several years past there has been a goodly bit of work given the builders here and many new structures have gone up. The expansion of the people elsewhere have had any conception of whatever and the people are gratified that this year there are signs
