Minard's Liniment Co., Ltd.
I was very sick with Quinsy and thought I would strangle. I used MINARD'S LINIMENT and it cured me at once. I am never without it now.
Yours gratefully,
MRS. C. D. PRINCE,
Nauwigewauk, Oct. 21st.

Wm. Cross, a Newfoundland naval reservist, while on a 100 mile walk from his home at Hermit's Cove to St. John's, where he was to join H. M. S. Britain, was picked up dead near Green's Pond Traveling across the bay he fell through the ice. He made a gallant fight for life, breaking a path of more than a half mile to the shore. There he died from exposure.

FIRE ON STEAMER

New York, May 8—A mysterious fire on board the Italian steamer San Giovanni, at a Brooklyn dock today, is being investigated by the Fire Department. The San Giovanni was loaded with munitions and supplies for the Allies, and was to sail in two days for an unannounced destination. The loss was small.

HOW LONG WILL THE WAR LAST?

The War Against Health Is Quickly Ended By "Fruit-a-tives".

MRS. DEWOLFE
East Ship Harbour, N.S.
"It is with great pleasure that I write to tell you of the wonderful benefit I have received from taking 'Fruit-a-tives'. For years I was a dreadful sufferer from Constipation and Headaches, and I was miserable in every way. Nothing in the way of medicines seemed to help me. Then I finally tried 'Fruit-a-tives' and the effect was splendid. After taking one box, I feel like a new person and I am deeply thankful to have relief from those sickening Headaches."
Mrs. MARTHA DEWOLFE.
"FRUIT-A-TIVES", the medicine made from fruit juices, has relieved more sufferers from Headaches, Constipation, Stomach, Liver, Kidney and Skin Troubles than any other medicine.
\$2.50 a box, 6 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

EXPERIMENTS MADE

Experts of the Minnesota Agricultural College have proved that it is the horse that is behind on the evener that draws the greater part of the load. The experiments showed that, if the load is a ton, the horse that keeps its end of the evener eight inches ahead of the other end, pulls only 988 pounds, whereas the slower horse pulls 1,012 pounds.

Another interesting point investigated at the same time was a trial of milking two or three a day. The results showed no advantage in milking three times daily, and the extra labor was considerable. Moreover, the morning milk of cows milked three times daily was often poor, and below the 3 per cent limit.

GERMAN "U" BOAT SUNK IN BLACK SEA.

New York, May 8—A despatch from Amsterdam today to the New York Journal says:
"Berlin advices received today state that a German submarine was recently sunk by a mine in the Black Sea off the Bulgarian port of Varna. Most of the crew were saved by a destroyer despatched from Varna."
New York, May 8—A news agency despatch from Amsterdam today says:
"General Townshend, commander of the British forces that surrendered to the Turks at Kut-el-Amara and four generals of his staff, have arrived at Baghdad, according to Constantinople despatches today.
"They are being shown every consideration by the Turks."

NEW ORDER HAS GONE OUT TO GERMAN SUBMARINE COMMANDERS

London, May 9—The German Government has already issued new orders to the commanders of German submarines, in accordance with the concessions set forth in the reply to the American note, according to the Daily Telegraph's Rotterdam correspondent.

CALLING UP THE BOYS

London, May 9—The Daily Telegraph states that Prussian boys of 17 years of age have been called for military service.

THE POULTRY KAISER'S OPPORTUNITY

The Present Market Outlook Warrants Greatly Increased Production During 1916

From present indications Great Britain will require all the eggs and poultry Canada can produce during 1916. Last year, as a result of greatly increased production, Canada was able to ship to Great Britain the largest quantity of eggs exported since 1902, and at the same time reduced her imports for home consumption by nearly a million dozen.

Canadian eggs have found favor on the British market, and the prospects are that, providing they are available, much larger quantities will be shipped this year. The unusually high prices prevailing at the present time are largely due to this anticipated export demand.

Prices for poultry are also high, and will likely continue so for the rest of the season. Last fall and winter all the surplus Canadian poultry was exported at highly profitable prices. Between fifty and sixty cars of live poultry were shipped from Western Ontario to the Eastern States alone, and in the Maritime Provinces, particularly in Prince Edward Island, the export demand for canned poultry has greatly enhanced prices to producers.

Although some uneasiness has existed on the part of the trade as regards transportation facilities in view of the high freight rates and the shortage of boats, it is now reasonably certain that an even greater demand for Canadian poultry and eggs will occur this year. It is important, therefore, that every poultry producer takes to profit thereby, by hatching as many chickens as possible this spring.

Now is the time by hatching early, by hatching everything possible in the month of May, to guard against the marketing of so small, undersized, poorly finished poultry, which annually becomes a drug on the market in the fall of the year. Again it is only by hatching now, and giving the chickens every possible chance to thrive and grow, that a maximum supply of eggs can be obtained in the winter time.

Given their proportionate amount of attention, the growing of poultry brings quick and profitable returns to the farmer. With the increasing cost of meats, milk, butter, etc., there is a constantly increasing demand for poultry and eggs. The labor problem is not critical, as the boys and girls on the farm can readily take care of the poultry. The cost of feed is nominal, prices for poultry and eggs are high,—the highest in fact, for many years. It is obvious thereafter, that Canadians have a patriotic, as well as an economic duty to perform in making the year 1916 the banner year for poultry production in Canada.

THE VALUE OF RAGS

Don't Burn Them; They Are Worth Money Now.

A paper famine is threatened in Canada—in fact all over the continent—and rags and old paper are being eagerly sought that the supply of paper may be kept up. Even in the Maritime Provinces strong efforts is being made to conserve the waste supply, and the minister of trade and commerce at Ottawa is calling upon all Canadians to help. In New York a bundle of rags is now worth its weight in bread, according to the United Hebrew Charities of that day, which arranged to collect bundles of rags from 300,000 homes on Wednesday, announcing that for each pound of rags received a pound of bread will be available for the poor. The paper mills are waiting for the rags, and the bakers are all ready to supply the bread.—Ex.

Minard's Liniment used by Physicians.

HARD WORKING WOMEN.

Will Find New Strength Through the Use of Dr. Williams' Pink Pills.

It is useless to tell a hard working woman to take life easily and not to worry. Every woman at the head of a home; every girl in offices, shop and factories is subjected to more or less worry. These cannot be avoided. But it is the duty of every woman and every girl to save her strength as much as possible, and to build up her system to meet unusual demands. Her future health depends upon it. To guard against a break-down in health the blood must be kept rich, red and pure. To keep the blood in this condition nothing can equal Dr. Williams' Pink Pills. They strengthen the nerves, restore the appetite, bring the glow of health to pallid cheeks, and renewed energy to listless people. Women cannot always rest when they should, but they can keep their strength and keep away disease by occasional use of Dr. Williams' Pink Pills. Mrs. A. Rhodes, Hamilton, Ont., says: "A few years ago on coming to Canada, working long hours, and close confinement began to tell upon me. I was completely run down and finally could do no work. I was pale, suffered from headaches did not rest well, and felt altogether very miserable. The doctor said the trouble was anaemia, and after doctoring for some weeks without getting any relief, I decided to drop the doctor and take Dr. Williams' Pink Pills. Very soon I began to notice a change for the better, and by the time I had used a half dozen boxes of the Pills I was again enjoying the best of health. I have never had any return of the sickness and never felt better in my life than I do now. I give my experience, therefore, that it may be used for the benefit of others."
You can get Dr. Williams' Pink Pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

SOOTHING DIET.

Mrs. A.—Doctor, is there anything in the theory that our natures are affected by the food we eat?
Doctor—Oh, yes; that point has been conceded by the best authority
Mrs. A.—Then I think I'll get a setting hen and feed my little boy on the meat. He's the most restless child I ever saw.

IS "BILLY" COMING

The rumor is again going the rounds that Billy Sunday, the great evangelist, will attend the camp meeting at Berwick in August.

CHILDREN
In disorders and diseases of children drugs seldom do good and often do harm.
Careful feeding and bathing are the babies' remedies.
Scott's Emulsion
is the food-medicine that not only nourishes them most, but also regulates their digestion. It is a wonderful tonic for children of all ages. They rapidly gain weight and health on small doses.
FOR SALE BY ALL DRUGGISTS
Send 10c, name of paper and this ad, for our beautiful Savings Bank and Child's Sketch-Book. Each bank contains a Good Luck Penny.
