OPPORTUNITIES ARE PASSING.

Mayor Butler, of Woodstock, accompanied by a delegation of three members of the Woodstock Board of Trade, paid a visit to Detroit the other day to inspect several large manufacturing plants in the Dominion.

Woodstock is making a special effort to secure a large iron working plant which is anxious to establish a Canadian branch.

A member of the firm has visited Woodstock and expressed himself as highly pleased with the railway facilities.

What is the Industrial committee of Chatham doing towards securing industries of this kind? There is no place in Canada that can provide such excellent facilities for a concern such as the one mentioned above as can the Maple City. Chatham has exceptional transportation advantages both by water and by rail, and could offer to many concerns inducements that could not be bettered by any city in Ontario.

There are plenty of these manufacturing companies looking for suitable locations in Canada and those who get out and hustle for them are the ones who will get them. Chatham should not stand idly by and see these industries walk past her doors. A good, active Board of Trade, also, would be a great influence in building up the industrial interests of the city.

A MEMBER IMPLICATED.

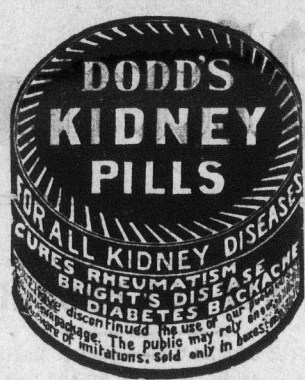

The members of the Laurier Government have had plenty of practice in side stepping during the past few months, but although they have to a certain extent been successful in preventing investigations into the methods of their Government, they have by no means strengthened their position with the electors. Charges have been made which the Premier has found it impossible to disprove and every day brings forth fresh evidence of wrongdoing and injudicious expenditure.

The Magnetawan lighthouse in the Parry Sound district was built last year. Some queer things happened in connection with its construction. The department decided to have the structure built by days work. The member for Parry Sound supports the Government, and it seems that he owns a tug boat. It is not lawful for a member of Parliament to take money from the Government for services. Yet it was stated in the House that this member's boat was employed at the work, that the captain of the boat was engaged as foreman carpenter, that another employee of the member was appointed inspector of the work, and that most of the men who worked on the lighthouse were hands employed on the same boat. It was further discovered that the foreman was paid \$3.50 per day, while the Minister told the House the other day that his pay was only \$3.00.

Further it was stated by Mr. Bennett, who had moved for and obtained the original accounts, that he had been informed by a person on the spot, that the number of days actually worked by the men employed was less than the number charged and paid for. Examining the papers he detected the coincidence that the original charges agreed with his private information. The figures had evidently been erased and larger ones put in their place. The mystery connected with this affair has been deepened by the complete loss of the file of papers which has not been found since the day it was inspected in the Chamber.

The muck-raker has been working overtime in Chicago, and the result is that there has been a lot of beefing about the Chicago stock yards. The ultimate conclusion arrived at by the average reader is that the whole business is on the hog.

We hear a lot about elvish beautification these days and City Councils will now have the power to at least do away with one of the most unsightly obstacles that greet the eye in our streets. By the legislation that will be passed at Ottawa a municipality will be empowered to order the removal of all poles from the streets and compel telephone companies to put the new services that they desire to install underground. The matter will have to be taken before a board, who will issue directions for the removal or change of the location of a telephone system upon the application of the municipality. Like all Liberal legislation it is composed of half way measures. The telephone company has shown a willingness to go under, but it is the electric light and telegraph corporations who refuse to move into line.

Appendicitis is a mild disease compared with the new one that a Paris surgeon has discovered. The name of it is muco-membranous or subacute typhlocolitis. The afflicted one has to be carved to pieces just the same as for appendicitis, and the only difference in the operation is that surgeons charge more for slicing the typh, instead of the vermiform.—Hamilton Spectator.

O. J. C. SPRING RACES.

W. A. Shaw is having a cottage erected at Tilbury-on-the-Lake. Herb Sloan left this week to take

A MILLION NEEDLES

COULD NOT INFLICT THE TORTURE WOMEN SUFFER FROM HEADACHES

Headache is not in itself a disease, but a symptom or accompaniment of other diseases, principally those of the stomach, liver and bowels, such as Constipation, Dyspepsia, Liver Trouble, Bad Blood, Female Complaints, General Debility and Weakness. Headache is common to both sexes, but more frequently affects females.

The varieties of headache most common are sick or bilious headache, nervous headache, headache from constipation, debility or indigestion, periodical and spasmodic headache. Undoubtedly the cause must be removed before permanent relief can be had.

Burdock Blood Bitters

removes the cause of the headache, and not only does this but it also restores the entire system to healthy action and buoyant vigor.

"I was troubled with headache for a number of years, but could get nothing to help me. I procured a bottle of Burdock Blood Bitters, and finding it was doing me so much good, I got two more. I am now fully cured and think there is nothing in the world like Burdock Blood Bitters for headache."

MRS. EDW. KEDDY,

New Germany, Ont.

B.B.B. is for sale at all Druggists and Dealers.

a position in a lumber yard in Chatham.

Misses Minnie Bartley and May Lumley have returned from a visit with friends in Detroit.

June 7.—Miss Esther Adair, who has been the guest of Mr. Joseph Stewart, has returned to her home in Petrolia.

W. T. Piggott, of Chatham, was in town yesterday.

Miss Jessie Anderson is the winner of the gold watch given by J. S. Richardson for the guessing of the weight of the large bar of soap.

Fred. Lee left on Tuesday with a carload of cattle for Toronto.

Mr. and Mrs. Henry Magee leave to-day on a trip to the Atlantic Coast.

Better Than Spanking

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box 4, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her to-day if your children trouble you in this way. Don't blame the child; the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

THAMESVILLE

June 7.—Daniel Buchanan from Dalmyra, spent Sunday in this vicinity.

Frank Nichol, of London, was in town yesterday.

Mrs. T. Duncan spent the day in Chatham.

Wm. Mayhew is spending the day in Chatham.
