

Swindler's Nervy Scheme.
Brantford, Nov. 13.—Carroll McCullum was arrested yesterday morning engaged in working upon local merchants, a very swindler. He solicits sums of money ranging from \$5 to \$10, being the sum required to make up the amount of his tuition fee at the local business college. When arrested he had \$41 in his possession. McCullum carried one arm in a fake crippled condition.

ALMOST DEAD OF BRONCHITIS.
Few people have suffered more than John D. Taylor, of Dymont, P. O., Ont. To-day he is well and writes, "I must tell you how much Catarrh-ozone has been to me. I was so bad with bronchitis sometimes that I thought it would soon be over with me. A spell of choking would come on that left me prostrated and weak. Since using Catarrh-ozone I have had no trouble at all. It strengthened my throat, stopped the cough, gave me free breathing and entirely cured me. Just the usual experience. Catarrh-ozone invariably cures whether Bronchitis, Asthma or Catarrh. Two sizes, 25c. and \$1.00 at all dealers."

Attempts Suicide.
Owen Sound, Nov. 13.—Mrs. Robert Taylor, a well-known and highly respected resident of this place, attempted suicide shortly after 8 o'clock yesterday morning by cutting her throat. She has been in very poor health for over two years, and the rash act was doubtless committed while mentally deranged.

A SUGGESTION OF RARE VALUE.
A diseased condition of the surface of the air passages causes bad breath, but more commonly emanates from indigestion or an impure condition of the blood. Thousands of cases where that Dr. Hamilton's Pills, through their specific action on the secretory and eliminative organs, not only cure bad breath, but so thoroughly purify the system that anything suggestive of blood or digestive troubles is impossible. Through Dr. Hamilton's Pills the skin grows rosy and clear, activity of the body and mind increases, and bounding health is established. Sold everywhere.

Dead, With Revolver Near.
St. Thomas, Nov. 13.—Wilbur Bourne, residing at the corner of Southwick and Erie streets, this city, was found dead at his residence at noon yesterday. He was employed in the office of the Michigan Railway. A revolver was found lying beside the body on the floor.

When a horse picks up a nail in his foot what does the driver do? Does he whip the limping, lagging animal and force him along? Not unless he wants to ruin the horse. At the first sign of lameness he jumps down, examines the foot and carefully removes the cause of the lameness. What is called "weak stomach" is like the lameness of the horse, only to be cured by removing the cause of the trouble. If you read the poem with "this stimulate the stomach with 'this key medicines' you keep it going, but every day the condition is growing worse. A few doses sometimes of Dr. Pierce's Golden Medical Discovery will put the disordered stomach and its allied organs of digestion and nutrition in perfect condition. Nine ty-eight times in every hundred "Golden Medical Discovery" will cure the worst ailments originating in diseases of the stomach. It almost helps. It almost always cures. To cure constipation use Dr. Pierce's Pleasant Pellets. They're sure.

Mustered Out of Service.
El Reno, Okla., Nov. 13.—Members of companies B, G. and D of the 26th Infantry (colored) recently dismissed by President Roosevelt, were formally discharged Sunday. The soldiers had refused to give information concerning an attack by some of their number on the citizens of the town, in which one man was killed.

The new Pure Food and Drug Law will mark it on the label of every Cough Cure containing Opium, Chloroform, or any other stupefying or poisonous drug. But it passes Dr. Shoop's Cough Cure as made for 20 years, entirely free from any of those opiate or narcotic. Dr. Shoop's Cough Cure is absolutely safe even for the youngest babe—and it cures, it does not simply suppress. Get a safe and reliable Cough Cure by simply insisting on having Dr. Shoop's. Let the law be your protection. We cheerfully recommend and sell it.

Sold by C. H. Gunn & Co.

DANGER IN CORN SALVES.

They usually contain acids and burn the flesh. The one safe cure is in liquid form is Putnam's Painless Corn Extractor, which is purely vegetable, causes no pain and cures in one day. Don't forget the name—Putnam's.

Hope is a good thing when backed up by bustle.

Minard's Liniment Cures Colds, etc.

NIGHT ROBES.

They Were Once Very Gorgeous and Worn in the Daytime.
In the middle ages night robes, as a general thing, were unknown luxuries. Under the Tudors royalty and nobility had them made of silk or velvet, and, as the old books say, "hence no washing was necessary."

A night robe of black satin bound with black taffeta and edged with velvet of the same color was daintily fashioned for Anne Boleyn. More luxurious still was one owned by Queen Bess. It was of black velvet, fur lined, and greatly offset by flowing borders of silk lace. And in 1568 her majesty gave orders that George Brodman should deliver "threescore and six best sable skynnes, to furnish us a night gown." Four years later her highness orders the delivery of "twelve yards of purple velvet, fringed on the back eye, with white and russet silks," for a night gown for herself and also orders the delivery of fourteen yards of murrey damask for the "makinge of a night gowne" for some one else.

Night gowns for ladies of a later period were called "nyght valls." In Queen Anne's time it was the fashion to wear them over the customary dress on the streets in the daytime, when out on a pleasure walk. And, as was fitting, ladies who indulged in night-caps had them also made of silk or velvet, with "much pretty garnishing of lace and glittering cords," and the fair ones made presentation of costly caps to each other as tokens of respect or affection.

MARINE TURTLES.

How They Are Stripped of Their Shells While Alive.
The shells shipped from the Colon district are taken from turtles caught on the Lagarto and San Blas coasts of the Caribbean sea during the months of May, June, July and August, when they approach the shore to deposit eggs, which are laid on the sandy beaches above high water mark at night. Holes are dug about one and a half feet deep and the eggs deposited therein. Generally about three layings are made during a period of nine weeks. The eggs are lightly covered with sand and left to be hatched out by the heat of the sun. The turtles are caught either while on shore or in the water by means of nets.

As a rule, they are killed immediately after being caught, cleaned and the shell frame washed with sand. But on the San Blas coast the Indians do not kill them, but at once proceed to remove the shell by subjecting the turtles to great heat, afterward throwing the turtles back into the sea. By the application of heat the successive plates of shell come off very easily.

Turtles caught in these waters vary in size from one to four and a half feet long, with a maximum weight of 150 pounds, and the average weight of shell obtained from each is from six to seven pounds. The commercial value of tortoise shell depends upon the thickness and size of the plates rather than upon the brilliancy of the colors.

They Waited Well.

A large audience once gathered in Baltimore to hear Professor Sylvester read a unique original poem of 400 lines, all rhyming with the name Rosalind. He had appended to the poem a large number of explanatory footnotes, which he said he would read first. When at last he had done so he looked up at the clock and was horrified to find that he had kept the audience an hour and a half before beginning to read the poem they had come to hear. The astonishment on his face was answered by a burst of good humored laughter from the audience, and then, after begging all his hearers to feel at perfect liberty to leave if they had engagements, he read the Rosalind poem.

No Mistake.

The editor was apologizing over the telephone for an annoying typographical error in his paper. "In our account of the meeting at which you were chairman last night," he said, "we tried to say, 'Following is a detailed report of the proceedings,' but it appeared in print, as perhaps you have noticed, 'Following is a detailed report,' and so forth. Mistakes of that kind, you know, will!"

"It may have been an accident," interrupted the man at the other end of the wire, "but it wasn't a mistake. You sidetracked most of the report."

Antismoking Edicts.

Strenuous efforts have been made in times past to stamp out smoking. Among the rules of an English school in 1629 it was laid down that "a master must be a man of grave behavior, neither papist nor Puritan, no haunter of alehouses and no puffer of tobacco." In Turkey, where the pipe is now omnipresent, former sultans made smoking a crime, and offenders were punished by having their fingers thrust into their noses, while in Russia a royal edict ordered the noses of the smokers to be cut off.

The Real Situation.

Benevolent Old Lady (to little boy in street)—Why, little boy, how did you ever get such a black eye? Small Boy—Me and Sammy Jones was fightin' for an apple in school, an' he smashed me. Benevolent Old Lady—Dear, dear, and which glutton got the apple? Small Boy—Teacher, ma'am.

Talent's Triumph.

"What's the difference between talent and genius?" "Talent makes money; genius does."—Detroit Free Press.

Cure For The Blues

ONE MEDICINE THAT HAS NEVER FAILED

Health Fully Restored and the Joy of Life Regained.
When a cheerful, brave, light-hearted woman is suddenly plunged into that perfection of misery, the BLUES, it is a sad picture. It is usually this way: "She has been feeling 'out of sorts' for some time; head has ached and back aches; has slept poorly, been quite nervous, and nearly fainted once or twice; head dizzy, and heart-beats very fast; then that bearing-down feeling, and during her periods she is exceedingly despondent. Nothing pleases her. Her doctor says: 'Cheer up; you have dyspepsia; you will be all right soon.'"

But she doesn't get "all right," and hope vanishes; then come the brooding, morbid, melancholy, everlasting BLUES. Don't wait until your sufferings have driven you to despair, with your nerves all shattered and your courage gone, but take Lydia E. Pinkham's Vegetable Compound. See what it did for Madame Josephine Rivville, Mass., Que. She writes:

Dear Mrs. Pinkham: "I suffered for four years with female troubles—inflammation of the stomach and fallopian tubes which caused me violent pain and often torture, so much so that I could not walk at times and attend to my daily duties. Life was misery to me. I was so blue and despondent I did not know which way to turn for relief. I had tried the doctors but they did not help me. I was advised to try Lydia E. Pinkham's Vegetable Compound, so I bought a bottle. I am glad that I did so, for I am well and strong to-day and the world looks bright for I have perfect health, thanks to your medicine."

If you have some derangement of the female organism write Mrs. Pinkham, Lynn, Mass., for advice.

SHOOT'S WOULD-BE ASSASSIN.

Russian Prefect of Police Escapes a Bomb and Kills Assassin.
Moscow, Nov. 13.—A bomb was thrown at Gen. Rheinbot, prefect of police of Moscow, on Tver street. The general was taking a walk near the prefecture of police, when suddenly a young man on the opposite side of the street threw a bomb at the general, which fell short, only splinters piercing his overcoat.

The official account says the bomb thrower was shot by a policeman, but according to popular report, which is generally believed to be correct, the prefect himself rushed across the street and shot the assailant through the head.

Summary Punishment.

Krasnoyarsk, Siberia, Nov. 13.—Three soldiers of the local garrison, who struck an officer Sunday, were immediately tried by court-martial and shot.

Experience is the fool's master; reason, the wise man's.

TORTURED BY ITCHING ECZEMA

Suffered Tremendous Itching Over Whole Body—Scratched Until Bled—Worse at Night, With Soreness and Excruciating Pains—A Western Lady's

WONDERFUL CURE BY CUTICURA REMEDIES

"Last year at this time I suffered with a tremendous itching on my back, which grew worse and worse, until it spread over the whole body, and only my face and hands were free. For four months or so I suffered the tortures of the damned, and I had to scratch, scratch, scratch, until I bled. At night when I went to bed things got worse, and I had at times to get up and scratch my body all over, until I was as sore as could be, and until I suffered excruciating pains. I did not know what it was, and resorted to a number of blood purifiers, using at times also Cuticura Soap. They told me then that I was suffering from eczema. Then I made up my mind that I would also use Cuticura Ointment and Cuticura Resolvent. I used them according to instructions, and very soon indeed I was greatly relieved. I continued until well, and now I am ready to recommend the Cuticura Remedies to any one who suffers as did your obedient servant. Mrs. Mary Metzger, Sweetwater, Okla., June 23, 1905."

TORTURING, DISFIGURING Humours, Eczemas, and Itchings Cured by Cuticura

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of scalp, as in scalded head—all demand a remedy of almost supernatural virtues to successfully cope with them. That Cuticura Soap, Ointment, and Pills are such stands proven beyond all doubt.

"Significant the world. Cuticura Soap, Ointment, and Pills are the best of all skin cures. It cures all skin diseases. Cuticura Soap, Ointment, and Pills are the best of all skin cures. It cures all skin diseases. Cuticura Soap, Ointment, and Pills are the best of all skin cures. It cures all skin diseases."

Minard's Liniment cures Dandruff

A STUNNING COSTUME.

Very Chic For Women With Well Put Up Figures.

Since stripes are so much affected for this fall, nothing could be better for this dainty morning costume than this French cashmere in biscuit color marked with hair lines of dark brown. The blouse is laid in tucks, the tucks being so arranged that the background is most prominent, with the stripes forming a piping, as it were. Each tuck is trimmed with groups of French knots in dark brown silk worked in parallel lines, though separated by three inch spaces. The round neck is stitched with shaped bits of brown taffeta

STRIPED CASHMERE SUIT.

bound with the cashmere, and there is also a girde of the silk. Puffed sleeves passing the elbows are gathered into simple puffs of silk bound with the dress material and finished with ruffles of soft plaited batiste.

The skirt is plaited and finished with bias bands stitched about the hem and over the hips in tailor fashion. The suit is simple and inexpensive and represents one of the most pleasing of fall modes. Nearly all of the fabrics used for such dresses are lighter than would usually be considered compatible with the time of year for which they are intended, but it is the purpose of the arbiters of fashion to steer clear of styles conforming with rules and usages, and the manufacturers of autumn fabrics have been entirely in accord with them on this point. Dame Fashion intends to push into favor some rather radical modes this year, according to present plans, but they will be accepted because they will be new and away from regulation lines.

Boxing the Ears.

A reprehensible practice not unknown to cross and worried mothers is the ready punishment of boxing children's ears, all ignorant of the danger of such a habit. There are several obvious things fraught with danger to the ear, such as picking with a pin, but people don't think, not having the matter explained, why a blow on the side of the head is such a bad thing.

The reason why children's ears should not be boxed is that the passages of the ear is closed by a thin membrane, especially adapted so that it is influenced by every impulse of air, and with nothing but the air to support it internally. What, then, can be more likely to injure this membrane than a sudden and forcible compression of the air in front of it? If any one designed to stretch or break the membrane he could scarcely devise a more efficient means than bringing the hand suddenly down upon the passage of the ear, thus driving the air violently before it with no possibility for its escape but by the membrane giving way. Many children are made deaf in this way.

A Simple Lamp Shade.

The elaborate flounced and frilled lamp shades of silk or paper, which were so popular awhile ago, are no longer seen in up to date rooms. Like tail ball dresses, they were charming in their first freshness, but this soon wore off and left them crushed and dejected looking objects.

A simple lamp shade of a lasting type is the one shown in the sketch.

MADE OF WATER COLOR PAPER.

It begins life in a plain white shade cut from stiff water color paper. The ovals are small prints. These are laid on the shade and penciled round. Rather smaller ovals are then cut out of the shade and the prints glued over the holes so that the light shines through them. The rest of the device consists of festoons of roses and ribbon bows cut from a gayly colored chintz and glued on to the shade.

There is very little work involved in this dainty lamp shade, and the cost is naturally small.

When the Liver is out of Order

calomel, cascara, salts, strong liver pills and purging mineral waters won't do any permanent good.
When a person is bilious, the liver is not giving up enough bile to move the bowels regularly—and some of the bile is being absorbed by the blood. In other words, the liver is in a weakened, unhealthy condition.

Now, purgatives don't act on the liver at all. They merely irritate the bowels, and afford only temporary relief. But FRUIT-A-TIVES are the one true LIVER TONIC. They act directly on the liver—strengthen and invigorate this vital organ—and put it in a normal, healthy condition.

FRUIT-A-TIVES also stimulate the glands of the skin—and regulate the kidneys and sweeten the stomach. When skin, liver and kidneys are normally healthy, there can be no biliousness, no constipation, no kidney trouble, no impure blood, no headaches.

No other medicine known to science is so reliable and so effective in curing Biliousness as these fruit liver tablets.

FRUIT-A-TIVES are fruit juices with tonics added—and are free from alcohol and dangerous drugs. 50c. a box or 6 for \$2.50. Sent on receipt of price. If your druggist does not handle them.

FRUIT-A-TIVES LIMITED, OTTAWA.

Qualified.
"Jack Thompson is a very witty fellow."

"Well, he's a chemist. He ought to be."

"Now, what on earth has that to do with his wit?"

"Everything. Chemists should be always ready with retorts!"

HEART TROUBLE CURED

In the rush, hurry and worry of modern times, we overlook the heart. Is it any wonder then that there comes a breakdown of this wonderful little engine, when such a continued strain is placed upon it day after day. There are many forms of heart trouble and the slightest derangement of this important organ is extremely dangerous. To strengthen the weak heart it is necessary to use a remedy that will act upon the heart tissue, restore and revitalize it and at the same time tone up and invigorate the nervous system, we have such a combination in

MILBURN'S HEART AND NERVE PILLS

Mrs. Ella Dingman, Morganston, Ont., writes of her experience with them: "It is with the greatest of pleasure that I recommend Milburn's Heart and Nerve Pills. I was troubled for a long time with my heart; I had weak and dizzy spells, could not rest at night, and I would have to sit up in bed the greater part of some nights, and it was absolutely impossible for me to lie on my left side. At last I got a box of Milburn's Heart and Nerve Pills and they did me so much good I got another box and they effected a complete cure. I have not been troubled with my heart since."

Price 50 cents per box or 3 boxes for \$1.25 all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Machine Makes Change.

In a new cash register recently patented the amount of the purchase is rung up by the clerk, the amount given by the customer placed in the apparatus and, presto, the correct change is delivered. A detailed explanation of the mechanism of the apparatus would be impossible in a limited space. There are numbers of levers and rods, all of which operate with the intelligence of the human hands.

For the Stomach Heart and Kidneys

Dr. Shoop's Restorative is a Cause Cure—not a Symptom Cure.

It is a common mistake to take artificial dietaries for stomach troubles—or heart stimulants for weak hearts—or so-called kidney remedies for diseased kidneys. These organs do not act separately or of their own accord—they have no control over themselves—and not once in 80 times is the sickness the fault of the organ. It is the fault of the nerves which control the organ—and only through these nerves can stomach, kidneys or heart disorders be cured. Dr. Shoop, of Rochester, Wisconsin, learned these facts in his medical experience that the power of the nerves is the power of the life. Bright's disease, rheumatism, neuralgia, sciatica, backache, neuritis, and all other affections of the nerves are not to be treated with drugs, but with Dr. Shoop's Restorative. These ailments are not separate and as such they are never cured. They are all symptoms of the same disease—the nerves are restored and the ailments disappear. The remedy which Dr. Shoop prescribed for these ailments is known as Dr. Shoop's Restorative. It restores the pain and distress of kidneys, stomach and heart troubles quicker than any other remedy. Dr. Shoop's Restorative can now be had of druggists everywhere. For sale and recommended by
