Sam and John Holmes, James Dodson and Charles Hicklin spent Sunday at the Joy Club. The colonel and the selective will remain there for a few days. They report ducks very scarce. They saw a large flock of wild geese.

Calmeyer, after which they were entertained, leaving for Cincinnati early next morning. Here they visited with the sister of the bride, the principal parts of the city, leaving the next morning on the return trip and arriving at Chatham at five o'clock. Although Mr. White saw many fine cities and beautiful buildings, he says that he would rather live in Chatham.

BUSY DAY

Judge Houston Disposes of Many Cases in the Police Court this Morning

"Make a note of the fact that License Inspector Massey was in Sunday school yesterday," was Judge Houston's smiling remark to The Planet reporter this morning. "Yes, you may put that down. I was there," was the response of Mr. Massey. "I went to see Mr. Houston to get his signature to a warrant. Jim Dodson waited for me outside in the rain, while I went in to see the judge."

Mr. Massey's visit to the William St. Baptist Sunday school was the result of an information which was laid against John Woodcock, who keeps a boarding house for the electric railway dogs on the Dover and Chatham townline. It was claimed that every Sunday liquor is sold on the premises contrary to the law. Woodcock, it is said, bought beer for 10 cents a bottle and sold it to the dogs for 15 cents a bottle, and the Sundays were the days on which the liquor was consumed.

Inspector Massey heard of it and he and P. C. Dodson drove out yesterday afternoon and found things as reported.

Woodcock came up before Judge Houston this morning and was allowed out on \$50 bail, which he paid. An effort will be made to have the nature of the charge changed.

The young lad who was imprisoned for running away with horses, was allowed out on suspended sentence. It is understood that he will be given in charge of a farmer near Bothwell.

Jimmy Burns and Fred Leguille, who were charged with vagrancy, were remanded for a week. O. L. Lewis appeared for Burns.

CAUSED BY DESPONDENCY.

Reginald McMichael Ends Life By a Bullet in Toronto.

Toronto, Nov. 6.—With a revolver clutched in his right hand, and a bullet wound in the right temple, indicating clearly the cause of death, Reginald McMichael was found yesterday afternoon in a room at the Walker House. The body reclined upon the left side, and was in sleeping attire, but it was evident that the bed had not been slept in, as the covers were in no way disarranged. From the revolver there still depended the price ticket, which would seem to show that the weapon—38 calibre—was purchased with suicidal intent.

The chief coroner, who was at once called, and who promptly responded, decided that an inquest would not be necessary, as letters contained in the dead man's clothing made it clear that he had been receiving treatment for a mental ailment, and had been in Buffalo last week for that purpose. It is believed that McMichael became despondent through brooding over ill-health.

The young man, who was only 29 years of age, was a son of W. McMichael of 101 St. George street, chief inspector of customs here. Deceased was employed in the local inspection branch.

MOWAT STATUE UNVEILED.

Lt.-Gov. Clark, Ex-Premier Ross and Premier Whitney Speak.

Toronto, Nov. 6.—To one of the greatest of her statesmen, Ontario paid tribute Saturday, when the splendid statue of Sir Oliver Mowat was unveiled in Queen's Park by Lieutenant-Governor Clark, in the presence of many citizens and friends. Tributes were paid by his honor, Hon. G. W. Ross and Premier Whitney, who were the only ones on the platform. The oration of the day by Hon. G. W. Ross was a splendid effort, and Mr. Whitney touched a tender chord when he referred to the lingering of the Union Jack upon the statue. The members of the Mowat family present were his son, Sheriff Mowat, and family; Mr. and Mrs. Thomas Langton, Mr. Dr. Primrose, Mr. and Mrs. H. M. Mowat. The statue is situated on the west front of the Parliament Buildings, and is of bronze, the figure standing nine feet high upon a splendid pedestal of Canadian grey granite, with bronze panels. It was the work of Sculptor Walter S. Allward of Toronto, who was highly complimented upon his work by the three speakers of the day. The total cost of the statue was \$10,000.

BLAZE AT LITTLE CURRENT.

Engine Being Repaired the Town Was at the Flames' Mercy.

Little Current, Nov. 6.—A disastrous fire occurred here Saturday night. It started in Williamson's poolroom, and burned east and west along the waterfront, burning P. H. Turner's boat-house and outfitting building; R. Colton's bakery, Dawson's stores, M. Goughan's liquor store, Miss Burnett's millinery store, B. H. Turner's wharf and warehouse, T. C. Sims' wharf and warehouse, and the postoffice building. The fire engine was undergoing repairs and there was no fire-fighting appliances on hand until W. & A. McArthur's tug Cuyler came from her wharf and got her big pumps to work. She was joined by the C. S. Boone Co.'s drill, No. 2, that is on the channel improvements, with her heavy pumps. The fire was stopped at B. H. Turner's wharf stores.

All the plate-glass fronts on the opposite side of Water street were broken, and the fronts burned to a crisp. Heavy fighting by a bucket brigade on the flat roofs saved the whole business section of the town. The loss will exceed \$12,000.

ACCUSED DOCTOR IS CANADIAN.

Is Held in \$20,000 Bail in the Boston Suit Case Mystery.

Boston, Nov. 6.—Dr. Percy D. McLeod, who was arrested and charged with having dismembered the body of Susan A. Geary, the victim of the Plymouth suit case tragedy, was brought into the municipal court Saturday and formally charged. He entered a plea of not guilty and the case was continued until Nov. 10. Justice Burke ordered McLeod held in \$20,000 bail.

Dr. McLeod, under arrest in Boston, is a New Brunswicker. He was born at Portage, near Penobscot, in King's County, and his father, Rodney McLeod moved to Boston when Percy was about 12 years of age. There are many relatives in St. John, N.B. What is confidently believed to be the head of Susan A. Geary, the dress suit case victim, was recovered in a leather handbag from the bottom of the harbor yesterday.

Morris Nathan, the lover of Miss Geary, will be arraigned to-day on a charge of abortion.

BRANCH CAUGHT IN TRIGGER.

Prominent Lumberman Out Hunting Lived Only An Hour After.

Campbelltown, N. B., Nov. 6.—Kilgour Shives of the Shives Lumber Co., died Saturday night from the result of a gunning accident, which occurred about 22 miles from Campbelltown in the afternoon.

Mr. Shives was walking through the woods, when the trigger of his gun caught in a branch and set off the charge, the bullet entering the region of the heart and out about the shoulder-blade, making an ugly wound, as the bullet was sofooned.

Deceased was conscious for over an hour after the accident.

Mr. Shives conducted one of the largest lumber industries in New Brunswick. He was very popular, and greatly esteemed as a citizen.

E. D. Smith Nominated.

Hamilton, Nov. 6.—The Wentworth Conservative met Saturday afternoon and placed their candidate, E. D. Smith, formally in the field. There were about 150 present and they were enthusiastic. No other name was suggested and Mr. Smith accepted the nomination. He only made a short speech, and laid down no formal platform.

CANADIAN EXCELLENCE IN PRINT.

How old-time customs still linger in the face of modern life is indicated in a symposium on "Quaint Habits of Dress in Canada," in Canadian Good Housekeeping for November. Another article of suggestive interest is "A Canadian Pure Milk Farm," describing an enterprise near Ottawa, of which Earl Grey is a patron. "His Clothes—As Seen by Her," is bright and to the point, and is also an article on Boy-training by Edwin Markham. There are a number of other articles and stories, and the regular departments, always invaluable to home-makers, are seasonably practical. The number is freely illustrated. Canadian Good Housekeeping is justifying its claim as "The Useful Magazine."

The regular meeting of Wellington Lodge, No. 46, A. F. & A. M., G. R. C., will be held this evening at 7.30. Visiting brethren cordially invited to attend.

A DISORDERLY SUNDAY.

Socialists in Austria Dispersed By the Prague Troops.

Prague, Austria, Nov. 6.—Thousands of Socialists held suffrage demonstrations yesterday morning, leading to serious disorders which continued all day long. Crowds hooted and eventually fired on the police. After ineffectual attempts to clear the streets it was found necessary to summon troops to disperse the mob.

The day's casualties were one killed and 47 were severely and slightly wounded, and 30 arrests were made. Fully 50,000 demonstrators took part in the disorders. Quiet has now been restored and the authorities have resolved to resort to martial law if the disorders are resumed.

At Vienna.

Vienna, Nov. 6.—The Socialist suffrage demonstration on the Ringstrasse yesterday was attended by 50,000 persons. There were no disorders whatever.

Similar demonstrations were reported from Lemberg, Graz, Klegenfurt, Bruenn and elsewhere.

Tornado Kills Seven People.

Mountainview, Okla., Nov. 6.—A tornado struck Mountainview Saturday evening, killing seven persons and injuring many others, and damaging much property. The schoolhouse, two churches, two livery barns, one hotel, a cotton gin and about 12 dwellings were blown away, and many more seriously damaged.

Killed in Gas Explosion.

Detroit, Nov. 6.—A special from Ishpeming, Mich., says: "Three children are dead and thirteen people are injured, one fatally, as the result of an explosion of house gas here yesterday which completely destroyed the Miners' National Bank. Workmen were hunting for a leak with a lighted candle."

Seven Miners Killed.

Bluefields, W. Va., Nov. 6.—Seven miners are dead and others were seriously injured as the result of an explosion Saturday in one of the Tide-water Coal and Coke Co.'s mines at Vivian. It is thought that several of the injured will die.

Making Marbles.

Germany maintains a monopoly of making stone marbles in spite of various efforts made to wrest the trade away. In the marble and agate quarries there are innumerable chips and bits of stone from the butting of the large blocks, and this refuse is broken into cubes about the size of a marble. An experienced worker produces these cubes of stone at an incredible speed and with remarkable uniformity. When about a bushel are ready they are dropped between a grooved bedstone and a revolving runner. Water is kept constantly supplied, and in half an hour the stones are turned out perfect spheres. With abundant water power the cost is slight, as a couple of men can keep a dozen stones supplied and the raw material costs nothing at all. In other countries the cost of preparing the blanks eats up the profits, and competition with the German made product is impossible.
