Spencer pointed out that out of this total expenditure of \$10,786, all that had been drawn by the boys themselves had been \$544.78. Considering the efficiency of the Brigade the cost could not be considered as excessive. Taking everything into consideration the Fire Department was one of which the city should be proud, and although some of the demands made by the boys were somewhat insistent, on the whole it was in the best interests of the city that these demands for extra equipment be granted. The Brigade had taken a determined stand on the question of having the pound removed from its location beneath the fire hall windows and had driven the Council to action, which was a very good thing, as the centre of the city was no place for such an unsanitary institution. Ald. Huckvale, chairman of the Parks and Market Committee, read the appended figures from his committee: Expenses. Materials - \$17.88 Water trough for market site - 6.00 Wages - 316.95 Materials charged by stores 104.95 Proportion of cost of city team - 90.00 Band - 495.00 Cup for Rifle Association - 50.00

Ald. Huckvale explained that the Council had considered the grand stand a necessary complement to the Athletic Grounds and so had purchased it. The account had been passed

HELPLESS 3 WEEKS

HANDS COVERED WITH ECZEMA
AMPUTATION FEARED, BUT ZAM-BUK SAVED.

"For three long months I was not able to attend to my own needs; and for three weeks the eczema on my hands was so bad that I was unable to feed myself. I had to be fed as one feeds a baby, because I could not hold knife, fork, spoon or cup." So says Miss Violet McSorley, of 73, Gore Street, Saint Ste. Marie, in telling how Zam-Buk cured her of eczema. She adds: "Hands, wrists and arms up to the elbows were covered with sores. The itching and the sores were high unbearable. As the disease developed, the skin actually peeled off leaving raw sores. The palms, fingers, backs of my hands and wrists were all in this shocking state, and I was forced to sit in agony all the while."

"The raw sores were soon in a foul condition, and my finger nails, all except two, fell off. During the different stages of my trouble, I sought the advice of three different doctors and received treatment, but although getting slight relief at first there was no cure. Amputation was at one time thought necessary but the timely introduction of Zam-Buk prevented this fearful ending."

"Zam-buk was recommended by a friend and we bought a supply. The first few applications gave me a little ease, but it was not until I had continued with it for some time that I felt a decided improvement. After that my cure went on quickly. Zam-Buk did what everything else had failed to do. Now my hands and arms are quite freed from the terrible eczema."

Are you suffering from skin disease? If so, take Miss McSorley's advice and try Zam-Buk.
