> "The charge is correct your honor." What are you smiling about; then?" "I have reason to smile. We've been married five years, and in all the scrapes we've had this is the first time I haven't come out second best."

farm and Household.

Castoria is recommended by physicians for children teething. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhoa and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's al sleep. Castoria is the children's panacea—the mothers' friend. 85 doses, Castoria is the children's My friend," earnestly exclaimed the lecturer, pointing a long quivering fore-finger straight at the cowering figure of a man on the back seat. "What will you do when you come to the end of your career and flud honor, friends, nome and all that makes life valuable, has more than paid the expense.

The future cheering, lost—all lost!"

to this subject, and within a lost independent to the conclusion held at Philadelphia in 1876 for the best idea to prevent interfering. In the government building was a department devoted to the horse, showing several skeletons, a great that makes life valuable.

To much cold water when the horse is heated and tired is a fruit-

opportunity to combine beauty and utility. The shade and ornamental inved clear round the toe and stop-Gents,-I took a severe cold, which settled in my throat and lungs and caused me to entirely lose my voice. For six weeks I suffered great pain and discomfort, and tried numerous remedies.

My wite advised me to try MINARD'S
LINIMENT and the effect was magical, for after only three doses and an out-ward application, my voice returned and I was able to speak in the Army that night, a privilege I had been unable to enjoy for six weeks. These facts can be verified by numbers of people in this

land on which to set them. A common planted with the choice varieties of cherries, plums, peaches, pears and apples, would look full as tempting, especially in fruiting time, as one covered with markes and evergreens. And my particular object in this article is to recommend farmers, when setting trees on their Little Johnnie-Please, dad, teacher told me if I wanted to learn quickly I was to put down every word I didn't know and ask you what it meant. Brown—That's an excellent plan, my farmers, when setting trees on their land near the road, to set those which will yield an income rather than those which are merely ornamental and which are a constant in jury to the land. Practical illustrations of the benefits of such a course this I use thin shoes, so that the grant of the same of the Little Johnnie-Well, dad, I have on down. Brown-Johnnie, go right up stair to signal perhaps of the sure approach of that more terrible disease, Consumption.

Ask yourselves if you can afford for the thing but shade which furnish not thing but shade which furnish not thing but shade which furnish not thing but shade will not stay on as long as by the common one, but they will stay row of maples, which furnish no-thing but shade and seriously injure long enough, for horses that intersake of saving 50 cents, to run the risk his land. The other has a splendid e perience that Shiloh's Cure will Cure your Cough. It never fails. This experience that Shiloh's Cure will cure row of apple t-ees. They furnish shade, are ornamental and do not plains why more than a Million Bottles injure the land near as much as many labels they will be to strike. The BEES.

DON'T FEAR THE BEES.

DON'T FEAR THE BEES.

Hardcastle—That was a long time old scar, never so obliterated that it cannot be seen. It is the same in the would have placed it there. ago wasn't it.

Lumkins—Yes. but why do you ask?

much more trival matters. The manWhen I use common shoes on hoises Hardcastle—Because a counterfeiter ner of learning to do any work is much more important than is commuch more important than is commonly thought. If learned badly at fourth nail comes at the part of the Is it not worth the small price of 75 cents to free yourself of every symptom of these distressing complaints, if you think so call at our store and get a botwhen he first came to this country he learned to busk corn of one of the fastest huskers in the neighborhood. He was engaged on a job to work by the was engaged on a job to work by the toe as I know of no other way the toe as I know of no other way. tle of Shiloh's Vitalizer. Every bottle has a printed guarantee on it, use ac-cordingly, and ii it does you no good it will cost you nothing. Sold by E. Lee Street. Sold by E. Lee Street.

He was engaged on a job to work by measure, but soon found he was earning little, because his fingers were awkward and unused to the business.

Near him in the same field was a whose horses I do not expert to whome here. Near him in the same field was a man who made the ears fly so rapidly, and with so little apparent effort, that our friend was astonished. He found the entire secret of the rapid work consisted in making no false whose little spearent effort, that our friend was astonished. He found the entire secret of the rapid work consisted in making no false will stop striking immediately they will rush off to some other shop, we thicking that it is much harder.

DOING ONE'S BEST.

Lumkins—I tell you the government has some pretty smart officers. One time a man counterfeited some \$1,000 they did, lapses from honesty and notes and took them to Chicago. Just as he got off the train in that city he was arrested by the secret service detailed by the secret service detailed.

They leave a mark in character that they are. They leave a mark in character than the outside branch. If the that though smoothed over is like an one to set out at the heel or to be longer than the outside branch. If the character that though smoothed over is like an one traingutening. Few people realize how much hu-exception of straightening the hoof a man action depends upon habit. If little as above mentioned, and do not first, much painstaking afterwards will hardly compensate the original the opposite ankle; sometimes I mistake. An energetic, wide-awake leave out the third, only using two German attributed much of his suc-cess in life to the simple fact that marks refer to shoeing the hind feet.

Please inform your readers that I have a positive remedy for the above named disease. By its timely ase thousands of hopeless cases have been permanently cured, I shall be glad to send two bottles of my remedy free to any of your readers who have consumption if they will send me their Express and P. O. address.

Respectfully, Dr. T. A. SLOCUM, 164 West Adelaide st., Toronto, Ont.

INTERFERING HORSES.

The subject of interfering natural y interests a good many owners of horses, and should interest shoers to that extent that they will give it enough a ten i n to be a le to overcome it in most cases. There are several resson- w y borses interfere; one is, per icu's ly with colts and young horses, too much work in a handling; while he claims that any given time, either on the road or kind of straw or cheap hay costs arm, especially in hot weather; an-something, and is good for other that have been beated by driving When she became Miss, she clung to Castoria,
When he had Children, she gave time Castoria,
I first provide for all uses,
save for manure, if used to cover a sile. The first row of boards is covered by a second row, cutting the joints of the first. Over this we place six inches of any kind of soil, the greatest has been in regard to interpret the sile with the elevator of the sile with the elevator strength of the sile with the sile with the elevator strength of the sile with the sile with the elevator strength of the sile strength of the sile with the sile with the sile with the elevator strength of the sile with the sile with the sile with the elevator strength of the sile with the sile w shoe horses I was taught to pare the feet the lowest on the outside, the idea being that by so doing the ankles would be farther to one side, that the apposite foot could pass ankles would be farther to one side, so that the opposite foot could pass it without hitting. The first case of interfering that I had I adopted the above plan; the horse struck more than ever. I then used shoes with steam over the silo? The same may the opt of the silo? the inside much thicker than the out-side, so as to tip the feet out still for stock. more; the result was that the horse n'erfered more yet. I then concluded that it was about time to make use of my own brains, and after considering the subject, I decided to pare the feet level and to the result of careless or improper a common light shoe; the horse im-

ankles or knees.

"Eh?"
"Clergyman'
"Well, not exactly," slowly replied the man as he scratched his ear, "but I reckon I'm the next thing to it. I've stood and seen my dog all chawed up and never wanted to lick the owner of the other animal."

We have a speedy and positive Cure for Catarrh, Diphtheria, Canker Mouth, and He d-Ache, in SHILOH'S CATARRH REMEDY. A Nasal Injector free with each bottle. Use tifyou desire health and sweet breath. Price 50 centes Sold by E. Lee Street.

Work consisted in making no false motions. Watching the fast husker a few moments showed him how the thing was done, and pretty soon he could do nearly as well himsel.

The deterioration of energy in what is known as eye service is no less an energy to the workman than it is to the employer. In fact it is much harder to correct an evil than it is to pre vent it. The other is the wise class, who assume to knew all about shoeing horses, but really know very little; this class wish to dictate the shoeing, and consequently must abide the result. I will add that colls frequently interfere before they are though his entire life. His labit of slowness is soon well understood, and he cannot obtain work except at greatly reduced wages. After awhile he tires of this and goes to worksfor himself,

THE SILO.

COLIC IN HORSES.

Coic in our horses is generally A correspondent of the Country lendleman says truly: Shade trees out throws the horse off his balance a big feed, colic is the result, or if in the door, yard and by the roadside, add much to the beauty, and
of his balance causes him to strike

of his balance causes him to strike thereby to the value of the farm. his ankles, and my experience of eaten in large quantities colic is

or the future cheering, lost—all lost!"

'Lost?" choed Mr. Rambo, dimly conscious that a question had been addressed to him," b'George, I'd (hic) addressed to him, and a great variety of horse-shoes, one of which illustrated the idea that much green food. The remedy is The general tendency has been to I am to speak of. The shoe was the same as in man—quekly give set trees which furnish shade and similar to common ones except the something to relieve the pain, keep are ornamental, without refenence to creasing and the position of the nail the animal quiet and warm and if anything farther; but here is a good holes. The outside crease, instead relief is not soot had get the veteri-

utility. The shade and ornamental trees which are usually transplanted are injurious to, the soil and make no return, except their shade and ornsment. Now, if instead of setting maples and elms, we would set some of the best varieties of fruit trees, we would have shade and also a good supply of fruit. This plan, think, is practiced to some extent in Germany, and would no doubt be successful here.

Our public common, if set over to some extent with fruit trees, would yield an abundant supply of fruit for the poor, who have no trees and no land on which to set them. A common planted with the choice varieties of cheries, plums, peaches, pears and apples, would look full as the hoof is all the widest part. The advantage of this kind of shoeing is that it the will proven is the control of the poor, who have no trees and no land on which to set them. A common planted with the choice varieties of their straighten the hoof shoeing is that it the will proven is the control of the poor, who have no trees and no land on which to set them. A common planted with the choice varieties of cheries, plums, peaches, pears and apples, would look full as the plant of the poor, who have no trees and no land on which to set them, a common planted with the choice varieties of cheries, plums, peaches, pears and apples, would look full as the plant of the poor, who have no trees and no land on which to set them, a common planted with the choice varieties of cheries, plums, peaches, pears and apples, would look full as the will not a set the substant of the plant o are often seen. We have in mind toot will stand about level. Shoes two farmers whose land borders on driven on according to the above Housekeeping.
