The Am. Novel of 1915.

MICHAEL O'HALLORHAN
by Gene Stratton Porter.

This is the story of Mickey the news-boy and his ward-peacher, whom he found with a crippled back and cried for until she was cured. It tells of Mickey's part in the romance of Douglas Bruce and Leslie Winton; and of the kindness of Peter Harding and his wife to peacher, and finally of Mickey's own love story with the wail he found years before.

The book possesses, like all of the author's works, a deep feeling for nature, the charm of the woods, the flowers and all growing things.
Paper 65c; cloth 90c. Not a dull page in all the 500 pages.

The Higher Form of Dress!

Instead of wearing a blanket like an Indian, civilization prescribes a certain style of clothes—it's a higher form of dress. Society by the same token won't tolerate a man with shabby, untidy garments.

We are ready to help you meet the demands of society. Our Dry Cleaning process keeps your apparel immaculate.

HARVEY & Co., Ltd.

The Eastern Trust Company.

A few reasons why an estate can be better administered by the Eastern Trust Company than by a personal executor or administrator:—

1. The Company affords the estate absolute security; it has a paid-up capital of \$931,000.00, and a reserve fund of \$229,300.00.
2. It has a long experience in the work of administering estates; it is incorporated for this business of acting as a trustee, and, unlike many other trust companies, it does no other.
3. Its existence is perpetual. Your estate, in the event of the death of a personal executor or administrator, must look around for a substitute, and the work of administration is impeded during that time, and the new executor is unfamiliar with the policy of his predecessor, and confusion results. This company's existence is perpetual, and there is a continuity of policy in its administration that the death of its officers does not break.
4. It possesses the confidence of governments, universities and prominent charities and administers their funds.
5. A number of other advantages which will appear in due course.

Why We Live Longer.

"When Goodyear discovered the vulcanizing process of treating rubber he added immeasurably to the world's health. About fifty million pairs of rubber boots and shoes are made, sold and worn in the United States every year. When you reflect that the most fruitful cause of colds—and all the dangerous and fatal diseases that colds lead to—is a pair of wet feet, it is easy to see that this enormous use of rubber footwear must have a very marked influence on the general standard of health. When Goodyear discovered how to make rubbers, human longevity took a great bound forward."—Popular Science.
