### Have You Examined the Tyres on Your Car of Late?

Do any of them look as if you had taken a coarse file and used it crosswise or at an angle on the tread?

If they do, the wheels of your car are badly out of alignment and it would be wise to have them attended to at once.

Perhaps the error of alignment is slight and the extra wear on your tyres will not be noticed quickly.

But if it is there, you will notice it on your tyre account. Just a little error may cost you thousands of miles of wear.

To be safe we suggest that you drive around to our garage frequently and let us measure up your wheels for you and see that they are kept straight.

It will take only a few minutes and our work will be free. It's part of our service as a Goodyear Dealer.
