Egg-powders are successful in cakes containing fats, but in sponge cakes fresh eggs should be used. One half of a cupful of chicken fat is equal to one half-cup of butter. One fourth of a cup of butter plus three tablespoonfuls of lard equals

one half-cup of butter. Water in which potatoes have been boiled may be used as a suit-

Cake containing fruit must be baked very slowly because part of the fruit will be at the surface and if this is scorched, the flavor is spoiled.

When nuts are used in a cake little less shortening is necessary. If hot melted fat is added to cake batter, it makes it coarse in grain rather tough in texture, and less light than it would be otherwise.

The object of beating egg-white is to entangle as much air as possible. If egg-whites are beaten too long, they liquefy and do not hold as much

Origin of "Gone West."

The following is given as the origin of the phrase "Gone West." More than 3,000 years ago the ancient Egyptian spoke of the dead as "the Westerners," or those who had "gone west.' For the abode of the dead was believed to be in the realm of the setting sun, in that Amenti where Osiris reigned. This belief by the ancients in the soul going west has at least a reflection in the customs of some of our own North American Indians, who cherished the belief that their "happy hunting grounds" lay in the West, and who ractised the custom of laying their dead away on well-provisioned scaffolds facing the west. The belief of the ancients died long, long ago with the religion of that far-distant me-died only to return to earth gain during the Great War.

So quickly did the phrase become a art of the vocabulary of the soldier the trenches that to-day it would e difficult to find a reading person all the earth that does not instant-
