CHINESE MASONS DEDICATE NEW MASONIC TEMPLE

(Continued from Page 1). (Continued from page 1)

Yesterday afternoon a banquet was held on the ground floor of the building, in which more than six hundred were served during the three sittings. The big meeting was on Saturday night, during which one hundred new members were added. Fifty more joined the lodge at the session held on Sunday afternoon, bringing their membership in Calgary to eight hundred.

The Calgary lodge has been organized nearly two years, and has been very successful. The Masonic order is very strong in China, where it has been established several hundred years, and now has lodges all over the world where Chinese are found.

The new building which the Calgary Chinese built for Masonic purposes is a, commodious brick structure of two storeys. The ground floor is used for meetings and banquets, while the upper storey is used for lodge and social purposes.

For the opening the interior was handsomely decorated. At the head is a large painting of Dr. Sun Yat Sen,

China's first president. Flags, bunting and numerous Chinese lanterns completed the decorations. A Chimese band of twelve pieces played throughout yesterday afternoon and evening, and was greatly enjoyed

by those present.

The installation of officers on Saturday night took place, with the following elections: President, Joe Brown; grand master, Lai Tan; second grand master, Choo Loy; interpreters, Frank Yee and Davide Doling; clerk, foe Duck.

Lack of present aids to travel is found to be the crying need of this rich land, says Father Lefevre. At present to reach the north one must trudge weary miles over portages, carrying the loads of provisions or catch, run dangerous rapids and paddle day after day in canoes. In the winter the long distances are covered on foot with a four or five-dog team to drag the native sleds on which is placed the cache.
