Okawa, July 41. The long delived discussion of the milities reciganization tools pieze in the House yesteries and was refreshed by a sunger in by Sir Frequenck Bergen hat all young men finder a second be required to attend three annual camps as a part of their duty to the State. An alternative to this was suspected in the military education which might be imparted at schools throughout Canada, a uniform scheme for which he hoped to see adopted by a conference to be called of all the Provincial Governments in the Dominion. Sir Frederick made several other announcements, one of which was that the Government are buying a number of large guns and that several Englishr gunmakers propose building factories in this country. He discussed the taking over of Hallfax and Esquimalt, which had caused a large increase in the expenditure. Lieut. Col. Tisdale and Dr. Sproule opposed taking over those fortresses, and favored accepting England's offer to pay over a lump sum toward their support.

Earlier in the day a general discussion occurred on the date of holding the accision, and Sir Wilfrid Laurier made a statement almost explicit, that the

Mr. Emmerson's bill to amend the railway act, 1903, of which notice had been given, was dropped.

Mr. R. L. Borden introduced a bill to amend the act respecting the House of Commons. His measure, he explained, was designed to cause the immediate issue within a reasonable time of the writ for a byc-election when a seat becomes vacant for any cause. The bill is on the lines of legislation in force in Ontario.

Hon. Mr. Oliver introduced a bill respecting roads and road allowances in the Provinces of Saskatchewan and Al-berta, which formally places in the hands of the Governments of the new Provinces the same authority as is now held by the Government of the North-West Teritories.

Hon, Mr. Fitzpatrick introduced a bill to amend the criminal code, 1892. The bill, he said, was intended to do away with the mischief of the trading stamp system by making it a criminal offence. The bill was introduced at the request of merchants and other associations in Quebec, and would impose penalties on the trading stamp company, the merchant and the customer using trading stamps.

Mr. Fitzpatrick's bill to amend the

Niagara Falls, July 11.—About 6 o'clock last night on the Niagara Falls Park and River road at the first bend, morth of Niagara Glen, a park and river local car, in charge of Motorman A. E. Rae and Conductor A. J. Zabell was standing inside of the curve with a disabled trolley arm, the motorman on top fixing the disabled arm, when a beit line car, loaded with tourists and visiting Elks, came around the bend at a good rate of speed.

It ran into the rear of the local. Both cars were bound for Queenstown. Fortunately no one was on the local car but the motorman. The heavy beit line car plowed into it and the impact twisted the local into a pile of debris. The front of the belt line car was badly bent and was derailed.

The force of the collision threw the passengers on the belt line car out of their seats and over the heads of others. Some nine or ten passengers were more or less injured, two of them seriously. J. Nickson got a severe cut on the forchead and cut under the eye and was badly bruised. W. Turner had an ankle broken. Both are Elks from Poplar Buffs. Motorman Rae of this city had his leg broken.
