Dr. Moorhouse merely mentioned the discussion over good roads electrification and the Federal Square, and added that the university question was seond in importance to none of these. The Free Press headed the report "Electrify Roads Doctor's Advice." which is a sheer misrepresentation. And besides they had just come from Hamilton, where everybody sleeps, and where J. Grant Henderson is now living. They pleaded hard to be allowed to go, and the court was just on the point of sending them down or a short term when they suggested that thy would get out of town inside an hour if given their liberty.
