No specific purpose for the trip is announced, but since the company has substantial business with the Orient in its smelting products, gold, silver, copper and zinc, it is thought that Mr. Warren's tour is for the purpose of making a general survey of the market and business conditions there.

OUR BONDS IN ENGLAND.

A cable dispatch from London states that negotiations have been going on there for the past eighteen months with the object of making the bonds of the provinces of the Dominion British securities. These negotiations are now said to be meeting with success.

The Ontario provincial treasurer, F. M. Black, commenting on this despatch, declared that if such were the case it would be a valuable concession. Mr. Black stated that Gairdner, Clarke & Co. bond dealers, of Toronto, were very active in endeavoring to obtain recognition of Canadian provincial securities in the London market, which would permit British trustees to invest estates in these issues.
