

ALL THAT IS LEFT OF HIM.

THE MEN ARE STILL FIRM—Victory on the side of August. A reporter visited the strikers' headquarters last night and found things quiet, but the strikers still firm and as determined as ever.

NIAGARA FALLS, N. Y., July 28.—The mystery surrounding the actual fate of Capt. Webb, the famous swimmer, who on Tuesday last made a bold bid for fame by plunging into the wild waters of the Niagara, was solved by the finding of his body a short distance below Lewiston. The finder was R. W. Turner, a mason and bricklayer. He was rowing up the river in a small boat alone.

Mr. Turner thinks it was about 9.30 a.m. when he first saw the body, and it was about noon when it reached the bathhouse. Coroner Elshimer, who was at Lewiston holding an inquest on the body of the two Indians which had been found on the river earlier in the day, was at once notified and took charge of the body.

It was his belief that the body, swollen almost beyond recognition, was that of Capt. Webb, whose feats had made him noted in a circle which he had entered the only thing he had on him when he entered the water, still remained. A tattooed arm was visible on the right arm a short distance above the wrist. The body showed evidence of having been roughly handled.

The face wore a set and determined look that plainly showed that it was the body of the swimmer. It was placed in a casket and taken to the morgue. The body was examined by a jury of seven persons, and a verdict of drowned was returned. A telegram has been sent to Frederick Kyle, Boston, in which it has been stated that the body has been found.

MONTEREAL, July 28.—The reports current last night of Carey's Irish informer being in the city did not create much interest as they were not generally believed, but on further enquiry to-day very little doubt exists that the suspected stranger is the veritable informer on the ocean part of the principal informers. He avoided everybody and kept entirely to himself.

When any reference was made to Irish questions of any kind in the bar or on deck within hearing of Carey, it is said that Carey had information by cable from Dublin of the informer's intended arrival and went specially to Pointe a la Pique to see if the informer was on board. He is convinced the man travelled in the same train with Mr. Phelan to this city in the King of the Irish Informers. Carey is said to be stopping at an out of the way hotel and has kept the house very closely since his arrival.

A number of seizures of smuggled jewelry have been made in Montreal. The largest seizure was made in the store of E. A. Brown. Mrs. Levesque was shot by her young son in a hotel in Cocoma with a revolver he found in his trunk. The woman is not expected to recover, the ball having lodged in the spine.

A DANCER'S DESPAIR. A once famous ballet artist bent on suicide—Reduced to Penury and Starvation. The New York Herald has received a letter from Augusta Sohler, whose name is familiar to frequenters of Niblo's garden.

MONTEREAL, July 28.—There is to be a thorough medical and sanitary organization in this city. The city is to be divided into medical districts, each having a medical officer, and a special committee of citizens to assist him. Each of these local boards will have regular meetings, and will report to a central board, and at certain intervals general sessions of all the boards will be held.
