Our Namesake

We received this week a copy of the first issue of "The Watford Guide," a handsome six-column paper published in Watford, N. D., the town V. G. Morris, M. D., formerly of Warwick, had a hand in naming. We feel flattered that the new paper is named "The Guide," after this journal, and hope it may become as closely connected with its district as closely connected with its district as this paper has become with the residents of Lambton. The Guide is the largest newspaper ever launched in the state. Watford, N. D., is the terminal town of a branch of the Great Northern railway in McKenzie county, and has been termed the "Certainteed town of Western North Dakota." The town is less than a year old and is doing a large business, the railway business so far averaging \$19,000 a month. There are 50 business firms in the town, the buildings are all substantial and up-to-date, modernly heated and lighted. A commercial club has been organized, of which Dr. Morris is vice-president. The Guide, in speaking of this gentleman, says:—
"V G Morris, M.D., was the first physician to locate and practice medicine in McKenzie county, and ever since them has had an increased practice until
