

the discovery of a new vein on the property. Iron Mask is coming into favour, owing to a rumour that a settlement of the law suit with the Centre Star may be amicably effected. Virginia has declined from 25 to 10 and 11, the vein having been lost at the 300-foot level. War Eagle declined during the month from \$3.50 to 2.98, but has since recovered to 3.30. The principal reason given for the decline of this stock is that the shareholders expected to have the privilege of subscribing to Centre Star at a lower price than this stock would be offered to the general public, whereas it was reported that Centre Star would not be offered to War Eagle shareholders for less than 1.50; but this report has since been denied by the Centre Star Company.

NELSON, SLOCAN AND AINSWORTH.

Athabasca has been in demand at 38 to 39. Fern has declined from 31 to 24. Payne from 1.40 to 1.25, while Noble Five has advanced from 22 to 28. Rambler from 43 to 52, though it has since fallen back to 49.

COAST MINES.

Van Anda has been the best seller, but notwithstanding the price has receded from 11½ to 8.8½ and 9.

MOUNT SICKER AND B.C.

Development has recently shipped 455 tons from the Lendra on Vancouver Island, the ore, it is said, averaging \$29.50 per ton. These shares are quoted at £1.

CAMP M'KINNEY.

Cariboo remains steady at 1.25 to 1.30. Waterloo at 11½, Minnie-ha-ha has declined from 19 to 17 and Fontenoy is held firm at 17. Silver Bell was very active for some time and advanced to 8½, but has receded to 7.

BOUNDARY CREEK DISTRICT.

Knob Hill remains firm at 98 and Old Ironsides at 1.15. Rathmullen has been very active and the price has advanced from 8 cents to 9½. Winnipeg is held firm at 30. Brandon and Golden Crown at 29, King at 25, and Morrison at 18.

The Simplest, Most Economical
and
Most Effective Concentrator
Known.

The Wilfley Ore Concentrator Syndicate, Limited.

32 OLD JEWRY, E.C. LONDON.

Beg to call the attention of Mining Engineers, Mine Superintendents and Managers, Machinery Dealers, and all connected with the Mining Industry to

THE "WILFLEY" TABLE

The following strong claims are put forward for the "WILFLEY," and will be found more than fully substantiated in actual working:

1. Simplicity of construction. No expensive wearing parts. No belt renewals. Nothing to get out of order. Practically no repairs.

2. Facility of adjustment to all ores treated. Once adjusted it needs but a minimum of attention.

3. Its wonderful capacity. Will handle three to five times as much material as any belt table made.

4. Reduction of maintenance charges. No skilled labour required. Reduction in initial outlay, as smaller number of tables are needed.

5. The ore particles being separated into distinct streaks a complete separation of the different minerals contained is effected.

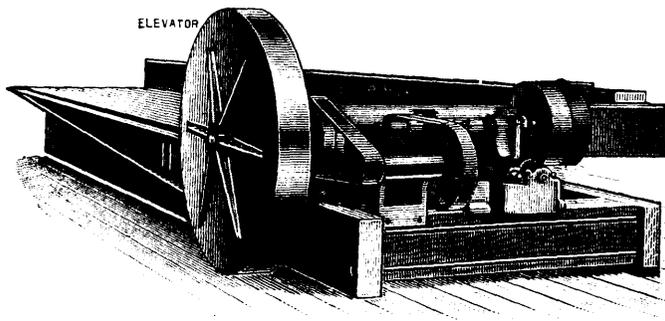

The "WILFLEY" has only been on the market some eighteen months, yet in that time nearly 800 have been sold, and are in use in 200 mines, which speaks volumes for the rapid and favorable recognition it has been accorded.

The most flattering Testimonials have been received.

The "WILFLEY" can be seen in operation by appointment at the offices of the Syndicate, 32 Old Jewry, London, E.C.

Samples of Ore, 50 lb. to 1 cwt., tested free of charge.
