### JULIAN HAWTHORNE'S Archibald Malmaison.

A NOVEL. 12mo., paper, 25 cents; cloth, 75 cents  
"Archibald Malmaison" is one of the most daring attempts to set the wildest fancy masquerading in the cloak of science which has ever, perhaps, been made. Mr. Hawthorne has managed to combine the almost perfect construction of a typical French novelist with a more than typically German power of conception. Genius is here of a kind more a typically self-governed than Hoffman's, and less obviously self-conscious than Kock's. A strange sort of jesting humour gives piquancy to its grimaces. —Globe (London).

Mr. Hawthorne has a more powerful imagination than any contemporary writer of fiction. He has the very uncommon gift of taking hold of the reader's attention at once, and the still more uncommon gift of maintaining his grasp when it is fixed. If anybody wants to read a good novel, let him read Mr. Hawthorne's and if anybody finds it uninteresting, let that body thereafterward hold it as an indisputable verity that he does not know a good novel when he sees it. —A. Academy (London).
