MONTREAL MINING EXCHANGE.

The total sales of the Exchange only amounted to 3,800 shares and prices showamounted to 3,800 shores and prices show-ed no signs of recovery. A steady realiz-ing movement is going on and there are yet no signs of awakening interest by buy-ere We can to-day only reiterate our ad-vic. of past few days. Hold what you have and buy on all soft spots. Ore has been shown us to-day worth "at the rate of" \$250,000 per ton. Strange to say this was not an avarage specimen, and also was not an average specimen, and also strange to say stock in the Company is for sale away below par. The gentleman who is at present in the city in the interests of the development of the mine showed a prospective buyer some feir average ore, who told him it was picked. Upon this the gentleman replied ; I will get you some picked ore. He did, and assays ran up to \$52,000 per ton. . This mine is a few miles from Montreal and more will likely be heard about it.

Virtue was off today and sold at 46 which would be accepted for more. Re-public was sold at 121 and is for sale at same price; 120 should bring in fresh buyers. The small sale of Montreal-London at 43 was no oriterion as to values as more would be paid for round lots.

Big Three is in supply at 141 and Cali-Both fornia was offered down to 101. these stocks are worth watching with a view to buying. There was a small sale of Slocan Sovereign at 27. This price would be paid for more though it was not openly bid.
