A BLACKSMITH'S STORY.

He Became so Run Down That Work Was Almost Impossible—His Whole Body Racked With Pain.

From the Bridgewater Enterprise.

Mr. Austin Fancy is a well known blacksmith living at Baker Settlement, a hamlet about ten miles from Bridgewater, N. S. Mr. Fancy is well known in the locality in which he lives. He is another of the legion whose restoration to health adds to the popularity of Dr. Williams' Pink Pills. Mr. Fancy related his story of illness and renewed health to a reporter of the Enterprise as follows:—"During the last winter, owing I suppose to overwork and impure blood, I became very much reduced in flesh, and had severe pains in the muscles all over my body. I felt tired all the time, had no appetite, and often felt so low spirited that I wished myself in another world. Some of the time, necessity compelled me to undertake a little work in my blacksmith shop, but I was not fit for it, and after doing the job, would have to lie down; indeed I often felt like fainting. I was advised to try Dr. Williams' Pink Pills, and after using a couple of boxes, I felt a decided relief. The pains began to abate, and I felt again as though life was not all dreariness. By the time I had used six boxes I was as well as ever, and able to do a hard day's work at the forge without fatigue, and those who know anything about a blacksmith's work, will know what this means. Those who are not well, will make no mistake in looking for health through the medium of Dr. Williams' Pink Pills.

Dr. Williams' Pink Pills cure by going to the root of the disease. They renew and build up the blood, and strengthen the nerves, thus driving disease from the system. Avoid imitations by insisting that every box you purchase is enclosed in a wrapper bearing the full trade mark, "Dr. Williams' Pink Pills for Pale People."

COMMUNION WINES.

Much thought is generally given by ministers and church authorities to the question of Communion Wine and all agree that whether a fermented wine or an unfermented grape juice is used it should be an article of undoubted purity. A fermented wine the "St. Augustine" Wine of which

Messrs. J. S. Hamilton and Co. of Brantford and Pelee Island are the manufacturers takes first place and is used largely in Presbyterian churches throughout Canada. Their unfermented juice, which dilution with an equal quantity of water before sacramental occasions and we understand is being used with satisfactory results, the time has doubtless arrived when foreign wines are a comparatively unknown quantity for Communion purposes in Canada.

"Take it back

—go to some grocer who will give you Pearl-ine." That's the only way to do when they send you an imitation. The popularity of Pearl-ine gets the habit of calling anything that's washing-powder, "Pearl-ine." Those who notice the difference in name, think perhaps "it's about the same thing." It isn't. Nothing else equals Pearl-ine, the original and standard washing compound. 53
