1½ INCHES THICK.
MAKES PICTURES 2¼ X 3¼ INCHES.

Pocket Kodak

So shaped as to go into the pocket without inconvenience, so light as to be no trouble when there, using light-proof film cartridges with which it can be loaded in daylight and withal capable of making beautiful pictures 2¼ x 3¼ inches, the Folding Pocket Kodak is the embodiment of photographic daintiness and utility.

The shape of the picture is artistic and the quality perfect, because the lenses are perfect. These lenses have a fixed focus, are strictly achromatic, have wonderful depth and definition, and every one must undergo the most rigid tests by our own inspector. Every lens with the slightest imperfection is unhesitatingly discarded.

The shutter is a marvel of simplicity. It is always set, and snap shots are made by a simple downward pressure on the exposure lever; time exposures are made by touching another lever once to open and again to close the shutter. The shutter has a set of three stops and there are two finders one for vertical and one for horizontal exposures.

Made of Aluminum, covered with fine black morocco with buffed brass fittings.
