HE HAS
Two Good Legs
BOTH MADE BY MARKS

Although a man may lose both his legs, he is not necessarily helpless. By using artificial legs, with Marks improved rubber feet, he can be restored to usefulness. The engravings represent Mr. James McDonald, of Mamaroneck, New York, who wears two artificial legs of Marks Patents. He is so ready on his artificials that many of his neighbors are not aware of the absence of his natural legs. He can dance, ride a bicycle and skate nearly as well as if he had natural legs.

With the old method of complicated ankle-joints such perfection could not be obtained but with Marks Spring Mattress Rubber Feet he is practically restored.

Arms restore appearance and assist greatly in the performance of labor. From our Measuring Sheet artificial limbs can be made and shipped to all parts of the world without the presence of the patient, with guaranteed success.

Over 47,000 in use. They are endorsed and purchased by the United States and many other governments. Received 49 highest awards.

Manual of Artificial Limbs, containing 384 pages, and Measuring Sheet sent free.

A. A. MARKS, 701 Broadway, New York City

NO DUTY ON ARTIFICIAL LIMBS.—On June 21st, 1897, the Dominion Government passed a new tariff. By provision of Item No. 479, artificial limbs are admitted into Canada duty free
