COMMENTS?

"We have our own quality assurance department to police for us. Also we are the largest foodservice distributor in the U.S. We have all of the usual requirements plus some of our own. Compton is wholly owned subsidiary of Sysco Corp. Several departments, including frozen foods, have been moved to Kansas City, Missouri. We have a merchandising staff and a staff of marketing associates numbering around 15,000. Call me (Steve Paden) regarding any Sysco purchases of seafood."

(Most new purchases for Sysco houses are initiated with Compton in Kansas City. Information on several other Sysco houses follows. Would suggest initial contact be made with Compton in each instance.)
