

Business of the House

I would like to ask the President of the Privy Council (Mr. MacEachen) whether when introducing his proposed legislation tomorrow he intends to establish the government policy concerning the services related to that legislation.

[*English*]

Mr. MacEachen: Yes, Mr. Speaker. I will be making a statement on the bill and on matters related thereto.

[*Translation*]

The Acting Speaker (Mr. Richard): I was thinking this evening that Parliament seems at times to operate slowly, but I believe that hon. members are hard-working, patient, confident and optimistic. I therefore wish them good night, and may their projects of today become the realities of tomorrow.

At six o'clock the House adjourned, without question put, pursuant to Standing Order.
