General, Currie McGill College Montreal P.Q.

Dear sir I have the Control, of, a  
Medicine, which will Cure, Cancer, and I  
shall be obliged to you if you can let me know  
what it would be worth, to give it to the  
world, to prove it, I Cured my own wife who  
was, operated on over 5 years since; she was so  
far gone before she was operated on, that it could  
not be taken out, a new opening was made in  
the stomach, and ever since she has been suffering  
very badly untill I procured this medicine, and  
have used 3 Bottles only, and now she is quite  
well as ever she was; I have testimonials of different people  
it has Cured, after being given up, by responsible Drs. &c.  
I am determined to bring it before the world and the  
one who will pay, the most for it will get it, if you  
would care to take hold of it, I will let you or  
any one who will be willing to try it out and  
pay for it, after a binding Contract has been  
made, + awaiting reply + yours

Truly R.A. Young
