NEW YORK, June 23.—In a finish worthy of its traditions for producing hard-fought contests, the Brooklyn Handicap was won today by R. K. Mackenzie's Buckhorn, by Broomstick—Thirty-Third, which staved off the gallant rush of Buskin and Rockview and just lasted long enough to snatch victory by a nose. Rockview, after carrying the crushing impost of 128 pounds over the mile and a quarter course, faltered in the last few strides, and Buskin squeezed into the second niche with half a length to spare. The time was slow, 2.08. Summary:

BOOKIES CLEAN UP OTTAWA LAST DAY

Only Favorite to Win -Gould Wins Three.

OTTAWA, June 23.—The spring meeting of the Connaught Park Jockey Club was brought to a close here this afternoon under fine weather conditions. The bookmakers made a clean-up. Only one favorite was a winner—Promoter, in the steeplechase. Jockey Gould rode three winners—Sati, at 15 to 1; Joe Knight, at 5 to 1, and Requiram, at 6 to 1. The New Russell Hotel Stake went to Pardner, while the Lumbermen's Juvenile was won by Carbide, at 4 to 1. The public lost heavily on the day's play, and all the bookmakers went to Hamilton tonight lar ahead as the result of their operations here. Summary:

FIRST RACE—Purse \$400, three-year-olds and up, selling, 5½ furlongs:

1. Sati, 102 (Gould), 15 to 1, 6 to 1 and 2 to 1.

2. Maid of Frome 103 (Murphy) 2 and

every norse and driver doing their utmost.

Robert Bever, with Herman Wenger, 2.08½, happened with an accident in the second heat. Just when he started to make his drive his horse stepped in a hole and he almost went down. He was compelled to pull up and dismount, leading the horse, which was very lame. In the 2.50 pace was won by the Port Arthur horse, Ak Sar Ben, driven by S. Feather. Nat Ray won the opening heat with Golden Rex in the tastest time of the race. Nat coming from behind to win nicely. He was not quite so good in the other heats, but shows a lot of speed; he is only a baby and will likely make a good pacer.

In the 2.14 trot the field was small, only four horses scoring for the word. Vanity Oro, from her performance at St. Thomas, looked like the good thing, but she was very unsteady and could not get better than four money. Sunday Morning, from F. Shacketts' barn, is a much improved mare, and made every post a winner, winning by the straight heat route.

Starter Smith had good control of his. 2. Tom Horn, 180 (Dupee), 11 to 8, 8 to 5 and out.
3. Velsini, 132 (Higg:ns), 6 to 1, 8 to 5 and 7 to 10.
Time 3.56. Port Arlington, Humidity, Giddy Girl and Panorama also ran. Tom Horn and Humidity coupled,

CIVIL SERVICE LEAGUE.

ST. MARK'S C.C. BEAT DOVERCOURT.

St. Mark's c.c. BEAT DOVERCOURT.

St. Mark's gained a splendid victory over Dovercourt at Dovercourt Par's by 50 runs to 45. The outstanding feature was the brilliant exhibition of both batting and bowling by W. Hill.

Batting first, Dovercourt were dismissed for the very moderate score of 45 runs, due mainly to the splendid bowling of W. Hill, who secured seven wickets for 20 runs. St. Marks fared no better and would undoubtedly have lost but for the fine batting of Hill, who, going in at the fifth wicket, carried his bat for 29 runs. Intense excitement prevailed when the last St. Mark's man, D. Masters, went in to bat, as six runs were still required to win, but he kept his end up well until eventually Hill made two threes to the boundary and the game was won.

ITALIAN POLENTA.

Polenta is a favorish dish with the Italians. It is said to be very nourishing. To make it take one pint of well cooked cornmeal mush, add one tablespoonful of butter, two ta-blespoonfuls grated cheese and one beaten egg. Beat for two minutes; then pour into an oiled bread pan and set away to cool. When cold slice in half inch slices and place in layers in a buttered baking dish, sprinkle each layer with grated cheese, dot with bits of butter, or use olive oil. Bake in a slow oven till the cheese melts and turns crisp and brown, coating over

HOW TO CONTROL

Salting Is Recommended by Many to Remove Weed When in Large Patches.

This year, as usual, field bindweed seems to be one of the most difficult weeds to eradicate. On account of the peculiar way in which new plants will start up from pieces of the old root it is very easily carried from one part of the farm to another. It is deeprooted, and has long cord like fleshy root-stalks, which throw out numerous slender twining stems which form a thick mat on the surface of the land

The weed may be kept in check by the frequent introduction of well-cared for hoed crops into the rotation, and the shorter the rotation the better. The later sown hoed crops, especially rape, are more effectual than those sown earlier in the season. Before the hoed crop is sown the weed may be kept in check by going over the field frequently with a broad-shared cultivator, so as to cut off all the plants an inch or so below the surface without bringing up any of the creeping root-stocks. About the first of July the stocks. About the first of July the land may be sown with pasture rape in low ridges about 26 inches apart, using a pound and a half of seed per acre, and during the early growth of the crop the weed may be kept under by means of the cultivator and more or less hand hoeing. If the land has been well manured or is naturally rich in verstable matter, and the seed is in vegetable matter, and the seed is sown when the soil is moist so that it gets an early start, the rape will make rapid growth and smother out some of the weeds. The rape may be pastured in the fall, and in some cases should be followed with another hoed crop such as corn. If the corn is well cultivated most if not all of the plants will be destroyed.

CONFECTIONER'S ICING.

Add one tablespoon of water to the white of one egg and a teaspoon of lemon juice, then thicken with confectioner's sugar that has been rolled and sifted. Stir continually as the sugar is added until the mixture will spread and keep in shape, then use on the cake. If more sugar is added the frosting is liable to be too hard after

Well, I'm Glad There's a "Safford" at Home to Keep the Folks Warm

The man whose wife and children are protected by a Safford Hot Water Heating Sys-temhashismindat rest when he's away from home in bad weather.

He knows that, by means of the choke damper at top of the Safford boiler (an exclusive Safford feature), his wife or son can control the Safford and have a warm house no matter how hard the wind may blow or how low the temperature drop. He knows, too, that the Safford boiler is built to

hold the fire, without coaling up, much longer than an ordinary boiler. The Safford will retain the fire for 24 hours. No danger of it going out if the folks oversleep. Women find it easy to attend to the Safford, too.

It is easy to shake, because you stand erect. It is easy to put coal in the roomy door. The ashes are readily removed. The Safford System is built by specialists with 30 years' experience

in steam and hot water heating. It costs no more than others. Send us your name and address on a post your name and address on a card and we'll mail you promptly our "Home Heating" booklet. A mighty interesting booklet to those interested in learning about the most advanced ideas in home
