OREIGN EXCHANGE AT LOW QUOTATION

Trade Centres Take More Cheerful View of Near Future.

NEW YORK, Sept. 17.-Weakness of foreign exchange, which fall to the owest quotation since the outbreak of var. was the most significant developnent in the general financial situation oday. Cables on London declined to .96 1-2 and demand to 4.96, chiefly

Grain bills were in better supply nd offerings of cotton bills on Berlin onstituted a new feature of the exhange market, which embraced more ctivity in france and pesetas. The lost conservative opinion was that lurope would take at least 20 per ent. of the issue. Demand from priate investors and big corporations, uch as the insurance companies was ch as the insurance companies, wa

Better Sentiment.

The better sentiment extended to be curb, private sales of Standard Oil ssues being reported at prices on a arity with those of July 30. As a artial offset, however, it was said hat bond prices were lower, fear of oreign liquidation in these securities eing the most serious aspect.

Other adverse news was contained the passing of the International larvester common dividend, similar ction by the Crucible Steel Co. on its referred stock, reduction of the Am-rican Express quarterly disbursement nd more curtailment of operations by everal of the Michigan copper com-anies. In every instance these conituation.

That institution made a financial return today, its liability reserves being further strengthened, while gold holdings increased about \$6,000,000. Total reserves, however, decreased about \$13,-400,000.
