

# NATURAL DRAFT DRY KILNS

MOIST AIR . . .

## LUMBER TRUCKS and TRANSFER CARS

Write for prices and particulars of the most simple and efficient Natural Draft Dryer on the market. Testimonials and list of users sent on application. Every square inch of heating surface is utilized to the uttermost and perfect ventilation and circulation is obtained by a very simple arrangement of ducts. Write for particulars to

**SHELDON & SHELDON,**  
GALT, ONT.  
FORMERLY MCEACHREN HEATING & VENTILATING CO.

## Pays For Itself

A Mumford Standard internally fired boiler requires from 10 to 25 per cent. less fuel than a return tubular boiler.

A saving of only 10 per cent. will cover the cost of the boiler in five or six years.

A Mumford boiler will therefore pay for itself several times during its lifetime.

**ROBB ENGINEERING CO., Limited,**  
Amherst, N. S.

Agents: { William McKay, 320 Ossington Avenue, Toronto.  
Watson Jack & Company, 7 St. Helen St., Montreal.  
J. F. Porter, 355 Carlton Street, Winnipeg.

## A Plain Truth, Plainly Put

It is a Lumber Drier's business to dry lumber as well as its merit permits.

It is **your** Drier's business to dry **your** lumber better and quicker and with less trouble than that particular lumber can be dried by any other drying process or any other Drier.

If your dry kiln doesn't do that, you can't afford to keep on using it.

## THE STANDARD DRY KILN'S

Drying conditions can be perfectly regulated to suit **your** product—whether that's pine or oak or any other wood that grows.

So regulated, it will dry your lumber more quickly, more easily and more to your satisfaction than you will probably believe possible until you are convinced by actual everyday demonstration.

Please write for our Catalogue "D," if interested.
