All since Thursday. Since that time seven patients have died from one cause of the other. St. Michael's reports an increase of five cases, and two deaths. The Toronto General has an increase of six cases, with two deaths. The Hospital for Sick Children shows an increase of two cases The deceased was born in Toronto on July 12, 1886. Any hour of the day—any hour of the night—in the coldest days—the coldest nights—in fair weather or foul, these faithful men on Shannon's staff are ready to answer your call. As regular as the clock—with the precision of a watch, they come and go to every part of the city. Big_lobs, or small jobs. It makes no difference. Every call is answered. No matter how far away. Shannon cars and men are ready. The work is done promptly. Not a penny is asked for distance covered or time going and coming.
