OUTLOOK FOR BUSINESS IN CANADA IS BRIGHT The monthly commercial letter of the Canadian Bank of Commerce says:

Seeding operations are commencing under favorable weather conditions all over the Dominion. The extent of fall over the Dominion. The extent of fall ploughing in the season of 1918 ensures an acreage under crop that will be fully up to the average. The present high prices for animal products and the prospect that they will continue for a considerable period should stimulate efforts to grow fodder crops on a larger scale than usual. Fall wheat has come thru the winter satisfactorily.

satisfactorily.
Wholesalers in general are actively employed in filling orders to meet day-to-day requirements, but buyers are only committing themselves to pur-chases that they can turn over quick-ly, under the impression that prices will decline further, and that there can be no stability until the terms of peace are finally arranged and foreign business is on a more stable basis. Quite a number of industries report the employment of more hands at present than during the war period.

CANADIAN FAILURES The number of failures in the Dominion, as reported by R. G. Dun & Co., during the past week, in provinces, as compared with those of previous weeks, and corresponding week of last year, are as follows:

March 14.. 6 9 3 0 1 0 0 TREND OF PRICES.

Last week's index number of Bradstreet's, based on the prices per pound of thirty-one articles used for food, was \$4.92, compared with \$4.90 the previous week and \$4.41 for the week ending April 18, 1918. Last week's number increased four-tenths Belleville. Ont., April 22.—George E. BULLISH SENTIMENT IN MINING MARKET

Substantial Gains Made by Gold and Silver Stocks on Confident Buying.

Confident buying marked the resumption of trading on the Standard Exchange yesterday after the Easter noliday season, and the pronounced bullish sentiment was reflected in substantial advances in a number of stocks in both the gold and stacks in both the gold and suver groups. In the Porcupine list the more prominent issues were McIntyre, Dome, Hollinger, Davidson and Kirkland Lake, while Beaver, Timiskaming, McKinley-Darragh, Ophir and Tretherwer. ewey were the favorites among the Cobalts. The trading was well distribated and the demand for the better class stocks was the dest in point time. Once again it was strongly en-phasized that such stocks and being tightly held. On the New York care gold stocks are receiving a good deal cumstance augurs well for a considerable broadening of interest in the ocal market.

local market.

McIntyre was impressively strong thruout, odd lots selling as high as \$1.80, and the closing price, \$1.79, showing a net gain of three points, and a total advance of 16 points from the low of about two weeks ago. Hollinger was up five points at \$6.40, the highest price attained since early in 1917. If any bullish argument is required where Hollinger is concerned, it is furnished by the interim report just issued, which makes it abundantly clear that the company could require to the monthly dividend basis and still have a fair sum to add to the surplus. Dome at 14.75 equaled the turn to the monthly dividend basis and still have a fair sum to add to the surplus. Dome at 14.75 equaled the New York high point yesterday, the closing here being at 1400, as compared with 14.50 in New York. Brokers reported that New York was an eager buyer of any Dome offering on the Toronto market. Davidson showed early heaviness at 66, but rallied smartly to 68, a net gain of a point. There was a good inquiry for Kirkland Lake, which sold up 1 1-2 to 51, with 51 bid and 52 asked at the close. Rich ore has recently been found on the 700-foot level, the mill is working smoothly, and it is contended by bulls on the stock that it has not had a rise proportionate with gains elsewhere, and that a ten-point advance would be well warranted. Dome Extension, up half a point at 29 1-2, 4s also regarded in some quarters as entitled to sell considerably higher, although the Dome Extension, option is giving some food for reflection. Inspiration, which has had a new lease of life since reports have been abroad of approaching activity at the property, sold up to 10 and closed at 9 1-2, a gain of 1 1-4. Wasapika at 60 and West Dome at 14 were unchanged. Dome Lake advanced 3-4 to 26 on

a gain of 1 1-4. Wasapika at 60 and West Dome at 14 were unchanged.

Dome Lake advanced 3-4 to 26 on brisk buying. The ore at the 500-foot level where there is a vein seven feet wide, is reported to be high-grade. The discovery is timely, most promising yet made on the pro-Beaver was one of the most buoyant of the silver stocks, making an advance of 3-4 to 441-2, with 443-4 bid for more. Inside interests are said to have been steady buyers of Beaver for some time, and the floating supply is small. Its strength was naturally linked up with that of its subsidiary. Kirkland Lake. Ophir opened weak, but a wave of strong buying of the kind which has been characteristic for some weeks shot the price up to 10 3-4, a net gain of 1-4. Timiskaming at 37 and Trethewey at 41 were each up a point, and McKinley-Darragh was firm at 491-2, and Chambers-Freeland at 101-4. The first sale of Mining Corporation since the issuance of a rather unfavorable annual report was at 2.10. showing no change.

no change.

Adanac aws active, but after a strong opening at 19 it sold off to 181-2, a net loss of 1-4 and this in the face of the fact that some more "jewelry rock" from the property has reached the city. Capt. C. L. Sherrill, a well-known northern mining man, reports very gratifying results as attending operations at the Adanac. On the 210-foot level ore running from 7000 to 10,000 oz. to the ton is being bagged from a cross vein sent in to tap the long vein, while in the latter there are at least three different places where the presence of silver is indicated.

FUNDS ARE ADEQUATE TO DEVELOP SOVEREIGN

Program of Aggressive Development Outlined at Annual Meeting Yesterday.

At the annual meeting of share-holders of the Sovereign Porcupine Mines, yesterday, G. C. Crean, who presided in the absence of W. C. Moodie, the president informed the meeting that after having been closed down during the war period, the mine was now being developed. Thru the sale of 300,000 shares of treasury stock, the treasury was now sufficiently supplied with funds to carry forward aggressive development for orward aggressive development for the remainder of the calendar year. Contracts had been completed for considerable diamond drilling, and the considerable diamond drilling, and the first drill unit was being set up at the present time. Mr. Crean stated that surface showings on both the Sovereign properties were of a most encouraging nature. The diamond drills will test these ore bodies at depth.

Two new directors were added to the board brightness the results.

seven. The new members are David Marantette, Detroit, and Dr. H. Glendenning, Toronto. The other members of the board re-elected are W. C. Moodie, president; F. C. Sutherland, vice-president; L. C. Platt, secretary; Neill Chappell and Alexander Cloring. The financial statement as of December 31, 1918, was read and ap-
