**\$20.00 MAY EARN \$1000.00**  
**QUICK PROFIT**  
 \$20.00 invested now may result in earning \$1000.00. This may seem incredible, but we can convince you. The Lead and Zinc industry is assuming proportions that make it one of the most profitable enterprises in the world. We represent a Lead and Zinc company of Joplin, Mo., the Zinc metropolis of the world. The company has a positively proven developed mine, drifting down on their 30-acre tract. It is growing rapidly and the price of lead is high. It has merit. We are offering a limited number of shares, just recently, at the lowest price of \$20.00 per share (par value \$10.00), fully paid and non-assessable. And the price of these shares will surely advance in a short time, thus assuring almost immediate profit through increasing value. The company plans to construct mills in a few months to centralize the immense bodies of ore now in sight. \$20.00 will buy 200 shares now. When mills are running and dividends begin to be paid, 200 shares should be worth \$1000.00. Not less than 100 shares will be sold at 30 cents a share, the installment subscriptions will be accepted one-half down and the balance in four equal monthly payments.

Primary receipts to-day, wheat, 378,000; shipments, 284,000; week ago, 700,000; 275,000; year ago, 460,000. Corn today, 605,000; 490,000; week ago, 940,000; 261,000; year ago, 590,000; 482,000.
