

## BRONCHITIS, COUGHS, CONSUMPTION, DIPHTHERIA,

And all Pulmonary Diseases, Cured by Radway's Sarsaparillian  
Resolvent.

Few persons but are troubled, more or less, with difficulty of raising Phlegm, a thick humor or matter, deposited from the blood, that obstructs the air-passages and glands of the Bronchia, etc. The accumulation of this matter leads to Ulceration, Tubercles and Consumption, and the patient suffers great distress until it is removed. One teaspoonful of the Resolvent will loosen the Phlegm and enable the patient to expectorate with ease. Every person troubled with Cough, Bronchitis, Catarrh, Tightness of the Chest, Phlegm, Inflammation of the Lungs, Congestion, etc., should take a teaspoonful of the Sarsaparillian at once, and bathe the chest with Radway's Ready Relief. If the Cough is constant, take the Resolvent regularly—three or four times a day—or whenever a fit of spasmodic cough seizes you.

It secures a good appetite, makes sound and healthy flesh and fibre, gives strength to the weak and repairs the waste with healthy material. Let not the Consumptive neglect this warning, nor reject the hope held out. Exclusive direct remedies, that act only on the lungs, will not cure; they may smooth and soften the path to the grave, but never will they restore the patient to health.

See pages 60 and 61, "False and True."

DR RADWAY—Dear Sir: About six months ago, my attention was called to your medicine by a friend in San Francisco wishing me to try it, and as I was about used up with many of the ails that humanity is subject to, and by most every one considered a victim of consumption, I was induced to do so. I have taken about two dozen bottles of Resolvent, together with the Relief and Pills. By the blessings of God and the use of your valuable medicine, and trying to adhere to a hygienic life, I am now very comfortably able to attend to some business, and gaining strength as fast as could be expected.

Respectfully,

M. P. MARTIN.

COLUMBIA, CAL., January 6th, 1873.

## BRONCHITIS, or CLERGYMAN'S SORE THROAT

Is cured with GREAT CERTAINTY with Radway's Resolvent. It seems to act by shifting the disease, as it were, to the surface, throwing out sometimes pimples, little boils, etc.

Diphtheria, Influenza, Hoarseness, Croup, Pleurisy, Sore Throat,  
Congestion of the Lungs, Cured in a few Hours.

Reader, if suddenly seized, or if suffering with either of the above frequently fatal maladies, do as follows, and you will be at once relieved from the distressing symptoms that either of these diseases inflicts, and in fifteen minutes free from further trouble.

## DIPHTHERIA.

Prevention measures are the best in all cases. The moment you feel a dryness in the Bronchia or glands of the throat, with soreness, apply the Ready Relief, and bind a flannel saturated with Relief around the throat—take six of Radway's Pills; do this, and no further trouble will follow. If seized with it, and the membrane has become thickened, with all the accompanying symptoms of suffocation, etc., rub the throat and chest freely; also, apply the Ready Relief clear, by means of a sponge fastened on a stick, to the inflamed glands and tonsils; give the Resolvent in small doses of half a teaspoonful every half hour, and Radway's Pills in large doses every six hours. The Ready Relief will, by its COUNTER-IRRITANT properties, withdraw the inflammation to the surface; its *Disinfectant* will neutralize the poison that induces the thick-

The flesh of a wild creature is easier to digest than that of a tame one.

They have fierce fovers who have sorides grown about their teeth.

Liquids replete more easily than solids.
