TRUE LOVE WON THE DAY.

Again, the Girl Waiking Day and Night to Reach Him Now a Wedding.

three years ago he left behind him in an Italian city Rosa Girardi, a playmate of his chiidhood. Their separation was that of youthful lovers who covenanted to cement their affections by marriage. But before Cuttle became located in America, Rosa's parents came across the Atlantic and went to live in Bridgeport, Conn. In this way the couple lost trace of each other. Cuttle has taken part in many of the cycle races and has achieved several victories. One of these was recorded in a New York paper a few weeks ago, and, while reading the paper one day the report of the race and her lover's victory caught the eyes of the young damsel in Bridgeport.

Rosa, who is but 16 years of age, said nothing to her parents, but gathered a few things in a little bag and came to Morristown, determined to find her lover. According to her story, the girl had considerable difficulty in getting here, being over a week en route. She walked a great deal of the way, sometimes at night, and was at times assisted by farmers.

The meeting between the lovers indicated that neither had allowed the love formed years ago to abate. Rosa explained to Frank the circumstances of her leaving home to seek him, and the young man then wrote to the girl's father, explaining the situation, and placed his sweetheart in the custody of a woman relative.

Wednesday Cuttle received a letter from Rosa's father, in which he said he entertained no ill feeling toward his daughter, and accepted Cuttle's invitation to be present with his wife at the wedding, which will take place to-morrow night in this city.

Henry Clews says: "One of the most hopeful features of the situation is the extreme and yet still growing case in the money market. A more complete change than that which has occurred in respect to credits within the last four weeks could not be imagined. From Oct, 31 to Nov. 28 the loans and discounts of the New York banks increased \$17,500,000, the deposits gained \$24,200,000 and the surplus reserve has risen \$14,400,000. The banks appear to have almost exhausted the supply of discountable paper, and the rates on time loans against collaterals have fallen to figures which imply that the banks expect the rate to remain exceptionally low for several mouths to come. There is some element of speculation in all mining ventures, but so far as we can judge the property of this company (with 1100 feet of development) has proven itself very valuable, and we think that the shares at 20 cents are, perhaps, about the best "purchase" of any mining stock on the market. McIntyre & Wardwell (John J. Dixon send the following despatch to their branc office in Toronto from New York:

The market declined this afternoon of the publication of the President's message. It is generally called a moderate one, but whether the selling was on the happening of the expected or disappointment that it was not more moderate is hard to say. Trusts were evidently construed bearishly. The Sagar directors met unexpectedly today and declared regular dividends. Foreign exchange was weak at 4.89% to 489%. Kansas and Texas shows for the fourth week a loss of \$5000 gross and for November a gain of \$130,000. General Electric was strong during the morning on talk of valuable contracts to equip some of the Metropolitan Traction lines. The President's message refers to the Union Pacific system, and earnestly recommends action by Congress. Cammack and Wells, brokers, were active in selling stocks this afternoon. Wheat—The early cables were lower, and this news was considered very discouraging by local bulls, coming as it did in face of our strong closing on Saturday. There was heavy selling of long wheat and many short lines were put out again, but on the break wheat semed to have plenty of friends, and the market has had several small but victous turns to-day. There was no export business reported from the East, but there has been 60,000 bushels sold from here. Northwestern receipts 1048 cars, against 1280 last year. We feel that wheat should be bought now around present prices, as the market is getting oversold somewhat and we will probably get quick rallies every time the market breaks.
