ASSOCIATE ARCHITECT FOR LIBRARY BUILDING

Was One of the Judges in the Competitions-Strikers Ejected From the Station.

HAMILTON, July 22. - (Special) - Tite building committee of the public library board held a meeting this afternoon, and appointed Architect Green of Buffalo associate architect with A. W. Peene on the new library building? This was acceptable to Mr. Peene. but it is not known whether Mr. Green the judges of the plans submitted in the competition for the architectural work of the library.

The committee also decided not to try and sell the buildings on the library site just yet.

The board of control had a private session this afternoon with representatives of the Dominion Power and pute between the city and the company. Nothing was agreed upon, but the deputation promised to meet the board again, and resume negotiations.

For many years Dr. Miles' Heart Remedy has been very successful in the treatment of heart troubles, because of its tonic effect upon the heart nerves and muscles. Even in severe cases of long standing it has frequently prolonged life for many years after doctors had given up all hope, as proven by thousands of letters we have received from grateful people.

Want Them To Besign on the Spot--Big Meeting Voices Disapproval-N. Toronto News.

SWANSIA. July 22.-(Special.)wansea people are up to arms and not the Swansea school. It is many a ong day since the little burg was so excited and to-night's mass meeting held in the Baptist mission tent just a short distance from the school, was rouser, the place being packed to the doors, and the excitement intense. The ex-principal was there and go he reception of his life.

The circumstances leading up to the The circumstances leading up to the present trouble are briefly these. Three years ago the board engaged William Beecroft, but the latter's failure of two years ago to successfully pass any entrance pupils save one, is said to have displeased the trustees, and this year, just before the examinations came on the board, composed of Dr. Spaulding, R. C. Smith and Samuel Wright, asked him to resign, which he did. Later, when the results become known and it was shown that Beecroft had succeeded in passing four out of 5 candidates writing, all of them with honors, and two of them successful in winning the gold and silver medals annually donated by the York Township Council, and open to the whole township, there was no end of trouble.

To-night's gathering was in the nature of a protest, and John R. Robinson, editor of The Evening Telegram, was chairman and made a rousing speech, eulegizing the late principal, charging that the act of the trustees was high-handed and that of intermedding busy-bodies. "I am glad to see that you have not lost your sense of fair play and justice," said he, "ancounseled them to stand firm in defence of their rights, and if possible secure the reinstatement of the late principal. A dozen or more of the leading rate-payers in the distret spoke disapproving of the action of the trustees and expressing their determination to fight the matter to the bitter end.

NORTH TORONTO. Members of Council All Express Desire for Sewage Plant.

NORTH TORONTO, July 22.—(Special.)—A meeting of the town council in committee of the whole was held tonight, Councillor Reid in the chair, when the matter of the construction of a sewerage system was the chief subject under discussion, and following a declaration by the members individually favorable to the prosecution of the work, a good deal of discussion ensued.

the latter's advice would largely guide the course to be finally adopted.

He urged that the measurements taken should be accurate and not superficial, and incidentally stated that there were in town at the present time about 35 miles of streets. The question as to whether the system should be a combination one or reparate ought also to be decided, he favoring rather the separate as most in vogue through the

Don and Don-levels to be taken from the Toronto lands postoffices held last evening in B. M., the total cost not to exceed \$250.
Following this disposition of the sewerage question, the members again resolved themselves into a committee of the whole to consider the double trackng of Yonge-street, macadamizing, the ject onalle blowing of whistles, crossings, platforms for passengers, the fenders in use on the freight and pas-

senger cars.

All these matters were taken up in detail, and while the discussion was only informal, it was felt that some drastic reforms were necessary, tho council was evidently in doubt as to the best solution of the trouble. One thing the committee did was to agree to write the general manager of the Meropolitan Railway, asking him to submit a written offer re the running of Sunday

submit a written offer re the running of Sunday cars.

Solicitor Gibson is away on his holidays and members were not altogether sure of their ground legally, and so no very great progress was really made, as the whole question will in any event come up for final disposition at next meeting of the council. In the last analysis the ratepayers will be called upon to decide on the merits or demerits of a local sewerage scheme, and while the council are to be commended on their efforts to do something along the line of sanitation, the proposal to gon with the work is not thought to be senerally favored around town.
