**MOST COMPREHENSIVE
STOCK EAST OF
BOSTON**

ST. JOHN, N.B., is the natural and logical shopping centre of the Maritime Provinces. Its geographical situation makes it a convenient distributing point, and a network of transportation facilities entering the city from all points ensures prompt

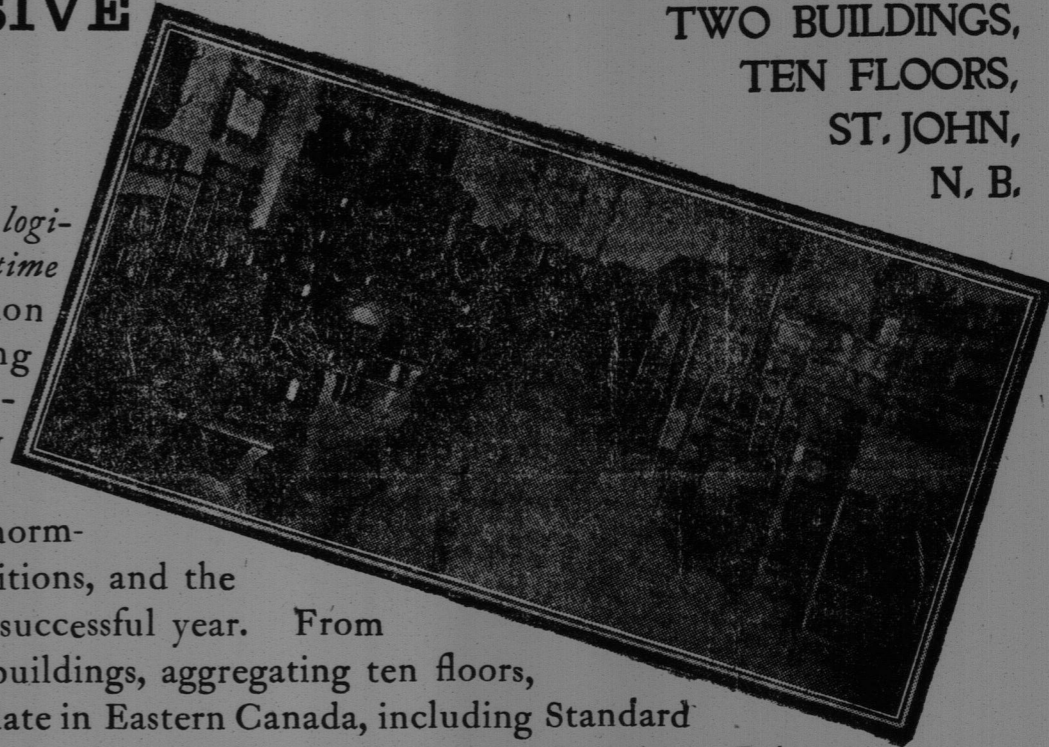

delivery and safe transit. We have built an enormous Furniture Trade upon these favorable conditions, and the

season of 1908 gives every promise of being our most successful year. From

rather modest premises to the expansive floor area of two large buildings, aggregating ten floors,

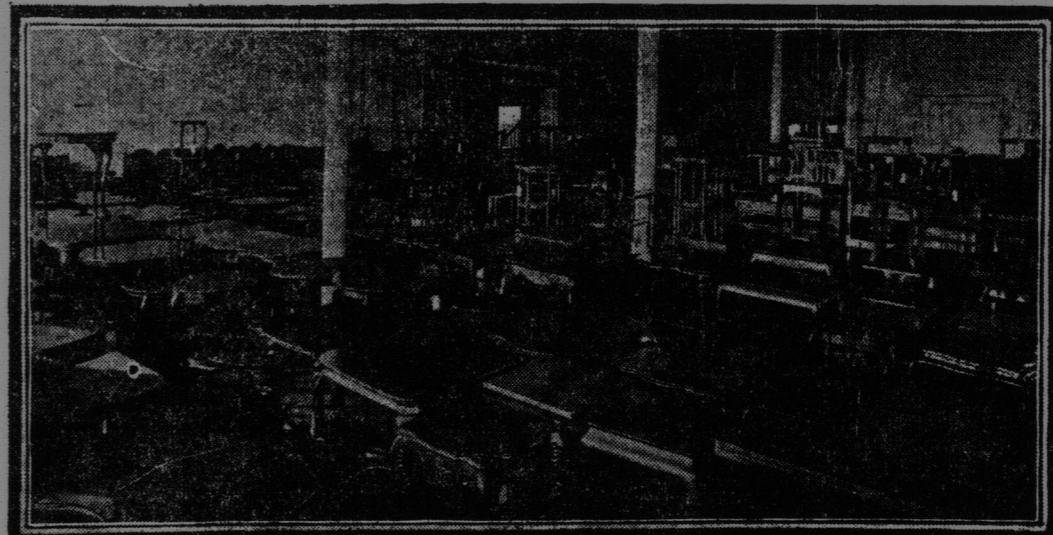

our Furniture Department is now the most varied and thoroughly up-to-date in Eastern Canada, including Standard Staples and Newest Novelties, as assembled by competent buyers after careful selections at the most important Furniture Fairs.

We Issue No Catalogue,

but respectfully solicit enquiries from any section of Lower Canada. Furniture patterns change regularly, and as factories each season discontinue making certain lines, the value of an illustrated buying guide is practically destroyed in a very short while. A sharp and detailed system of salesmanship by mail is what we offer our friends in outside parts, and satisfactory dealings are absolutely guaranteed.

SEWING MACHINE SPECIALTIES.

AN important adjunct to our Furniture business of late has been the introduction of guaranteed, reliable Sewing Machines at popular prices—a long felt want.

The Esmaray \$25.50 embodies leading and latest features of highest type Shuttle Sewing Machines. No machine is superior to it in construction, quality of material, finish, workmanship, sewing qualities or durability, and it is much superior to all others. We guarantee it so.

The M. R. A. Special \$21.50 is a machine on the same model as the Esmaray, except in a few small details. We sell it for \$7.00 less because of these differences, though it is an excellent machine in every particular and capable of the best work. ASK US TO TELL YOU MORE.

UPHOLSTERY WORK.

AN UP-TO-DATE FURNITURE ESTABLISHMENT is incomplete without an Upholstery Workroom. Our workrooms are modernly equipped and under the superintendence of an experienced expert—a designer and originator. Aside from the most refined types of upholstery, such as Silk and Velour work on Drawing-room Furniture, the Upholstery Department executes special orders for Cozy Corners, Window Seats, Lounging Nooks, and unique suggestions to correspond with furnishing schemes. Simply make known your desire, send measurements, ask for samples, and we do the work "to the Queen's taste."
