THE EVENING TIMES AND STAR, ST. JOHN, N. B., MONDAY, SEPTEMBER 25, 1922

## FOUNDLAND PER AROUSED

is Advocate Says  
Canadian Interests  
Working Against the  
Humber Industry.

Evening Advocate, St. John's, Nfld., Sept. 18.  
Yesterday the following information came to us from an authentic source: It might be well for the people of Newfoundland to know immediately that certain Canadian interests have been and lodged a strong protest with the Imperial government against the Imperial government's granting of concessions being granted for industrial development in Newfoundland. These interests are now attempting to get a combination of English and paper manufacturers to join in to fight the concession to Newfoundland.

This refers, of course, to the Humber industry and the arrangement at which is being made under the British government, under its trade facilities act, is guaranteeing a portion of the bonds of this project.

It is almost unthinkable that the Canadian Pulp and Paper interests would take the trouble to interfere so unwarrantably with the affairs of another Dominion, or prove so small in their attempts to check industrial development in Newfoundland.

There is no dependency in the Canadian pulp and paper industry at the present time, nor is there the slightest anxiety expressed about the continued prosperity of that industry, and why these interests should be so anxious to interfere with such needed industrial development here is a mystery.

The only answer to it all is that these companies want to keep all the pulp in the paper and pulp industry for themselves and that they are afraid of the competition with this little island.

these lands and then go away and forget them.

We do not want any speculators to lock these lands and resources up in order to choke off competition.

We have resources of huge wealth which have lain dormant for decades. The concessions which this Dominion is offering to the Armstrong, Whitworth Company are for the purpose of forcing these resources of the Humber to the point of full development. We are dealing with a reputable English firm and the whole financial world has confidence in it. That is a point which is worth stressing. Newfoundland needs labor giving industries, and is ready to offer concessions which will mean an industry of such magnitude as will be established on the Humber.

The British government has also been approached, in order that it may assist the oldest British colony in its legitimate aspirations in a time when this assistance may be of much service.

We imagine that the British pulp and paper interests will hesitate to join the American protesters, against the concession which the Imperial government is offering to the Armstrong, Whitworth Company. It is up to Newfoundlanders to arise and demand that those Canadian speculators keep their hands off our affairs. The time may come when it will be necessary to speak even more plainly about those who are keeping Newfoundland back in the march of progress. We seem to have been too long at the mercy of those who have retarded development, and if the people have to act we know they are ready to do so.

The country needs development such as is offered by the Humber industry and intends to have it, no matter what protest the other pulp and paper interests offer.

WANT MORE WOMEN  
IN CIVIC AFFAIRS

Active Campaign Will be  
Undertaken by Toronto  
Council.

(Toronto Mail and Empire.)

At a special round table conference of the Local Council of Women, yesterday afternoon at the Sherbourne House Club, a number of questions of immediate interest were brought up for discussion. The council will undertake an active campaign to secure representative women as candidates for municipal office at the New Year's elections.

Immigration, housing and town planning, the suppression of objectionable printed matter and other matters were considered. The president, Mrs. R. G. Smythe, occupied the chair.

Mrs. W. J. Wilkinson, convener of the finance committee, reported on the fee to be held this autumn in aid of the collection of the Wesley Bunday spoke on the housing and town planning conference to be held in Toronto, October 16th and 17th. Mrs. Woods reported on the work of the committee for the suppression of objectionable printed matter and the council endorsed a resolution to be sent to the federal government, requesting the appointment of a board of censors for objectionable printed matter. The treasurer's report was presented by Mrs. W. R. Jackson.

Mrs. R. G. Smythe presented the resolution on immigration passed at the recent conference called by the minister of education, and went on to point out the features of special importance. She stated that the British government would co-operate with the government here on an equal basis in financing the immigrants from the British Isles settling here.

I was very much pleased to discover that practically every point with which the conference dealt had been thrashed out already in the national council. The plan of instituting a farm scout movement for boys from fourteen to sixteen years of age was a new one, but in addition to the points brought forward by the conference I suggested that one day should be set apart for the immigrant to mark the occasion of receiving his citizenship. We want to make it a real day in their lives," Mrs. Smythe concluded.

Woman Dies From Cat's Attack.

Middleton, N. Y., Sept. 23.—Mrs. James McCue, sixty-six years of age, living at Summitville, ten miles from here, is dead as the result of being attacked by a cat, as she was about to milk a cow. The cat ran at her, its head lowered and butted her in the abdomen.

"TOY DRUM HERO"  
MADE GOVERNOR  
SO. AUSTRALIA

London, Sept. 6.—(A. P. by mail)—Major-General Sir George Molesworth Bridges has been appointed Governor of Australia, succeeding Lieutenant-Colonel Sir William Weisell. The latter resigned the position because he said he could not live on his salary and had not sufficient private means to afford the luxury of maintaining such a position.

His successor, Sir George, is known in the British army as the "Toy Drum Hero." That term has not been applied to him in derision, but in recognition of a memorable incident of the war in which he displayed great gallantry.

After the action at Le Cateau, in 1914, the British army started on its great fighting retreat, and men were dropping out from sheer exhaustion. Major Bridges, as he then was, went back to St. Quentin to round up stragglers.

He found them in a state of collapse. At a little village shop he bought a toy drum, and falling the men into line with the toy drum and a penny whistle to serve as a band, he marched them off, laughing in spite of their weariness. They kept on marching for twenty-eight miles.

Sir George was the military member of the Balfour mission to the United States in 1917, and head of the British War Mission to the United States in the succeeding year.

The Best Ever.

She was a little girl, and as they made their way in and out among the other couples she allowed her cheek to rest against his manly chest.

"Oh, Bill!" called out an irreverent youth as he sailed by.

"What?"

"That's a nice face you have on your watch."

The Secret of their  
Satin Jackets

You have noticed the  
delightful smoothness,  
aroma and flavor of the  
coating on Moir's  
Chocolates.

Do you know how this  
velvety texture is obtained?

Moir's do not buy their  
chocolate coatings. They  
make their own, importing  
for this purpose the highest  
grade cocoa beans.

The cocoa beans are first  
blended, roasted and  
enriched with added cocoa  
butter and then ground in  
powerful machinery for days  
at a time until the paste has  
the smoothness of satin and  
is so close in texture that  
the air is excluded and the  
flavor and delicate aroma of  
Moir's Chocolates almost  
indefinitely preserved.

That is why Moir's Chocolates  
are always fresh, de-  
lightfully flavored, delicate.

Take home a box today.

From far-off Ceylon,  
Java and South  
America come direct  
the cocoa beans used  
in making Moir's Chocolates.

BETTER RELATIONS  
OF CHINA PARTIES  
MAY BE ADVANCED

(Canadian Press Despatch.)

Peking, Sept. 24.—Acceptance by Hsu Chen, a loyal adherent of Sun Yat Sen, deposited president of South China, of the portfolio of justice in the reorganized Pekin cabinet, is regarded in official circles here as a marked step towards better relations between the north and the south.

It is understood that Hsu, who formerly was minister of justice in the Canton government under Yat Sen's presidency, will arrive soon from Shanghai to assume his post.

A bloc of members of the Canton parliament, mostly close supporters of Sun, have attacked the Pekin government's efforts to raise funds to tide over the mid-autumn settlement day by the floatation of a \$10,000,000 bond issue. This issue would be secured by that of the customs duty released through suspension of payments on the Russian Boxer indemnity announced a few days ago.

Following up their protest against the bond issue, the southern parliamentarians have telegraphed the foreign legations here as well as banks and public organizations throughout the country, condemning the plan. The protest declares that the bond floatation should be repudiated by the people.

Despite this opposition, the government is going ahead with its tentative bond plans. The cabinet appears to be hopeful that with the \$10,000,000 it expects to raise in this manner and the surplus from salt revenue after foreign obligations are met, it will be able to surmount its immediate financial difficulties.

Looks the Same.

Wife—"When we were married you declared that I would always look the same to you as the years went on."

Husband—"Yes, and I meant it."

Wife—"I guess you did. I haven't had a new hat or dress since the ceremony."

## WIFE FINDS VOICE AS HUSBAND DIES

Mrs. Samuel Simpson was in  
Semi-Comatose State for  
More Than a Year.

New York, Sept. 25.—Mrs. Samuel Simpson of No. 47 Hayes street, Baldwin, Long Island, who has been in a semi-comatose condition for more than a year, has not used her voice since last December, when she was operated upon in a vain effort to arrest the gradual advance of creeping paralysis with which she is afflicted. Tuesday evening about 7 o'clock, much to the surprise of her two attending nurses and her old negro maid, she aroused herself, looked around the room and asked: "Where's Sam?"

The nurses hugged each other with joy.

"Just wait until Mr. Simpson comes home; won't he be glad to learn that her voice has returned," said one to the other. The negro maid smiled from ear to ear.

Then the telephone rang. One of the nurses answered it.

"I regret to inform you that Mr. Simpson just fell dead while eating dinner at the Archambault restaurant, at No. 2072 Broadway," said a voice over the wire. The voice identified itself as that of Dr. Chas. F. Locke, who was dining with Mr. Simpson at the time.

A check-up revealed that Mr. Simpson's death and the return of his invalid wife's voice came at almost the same time. The nurses now are reading the supernatural in the double occurrence.

The death of Mr. Simpson was the third in a chain of tragedies that have visited the Simpson family. Mrs. Simpson was Mrs. Clara Viree. She came here from a Canada twelve year ago with her mother, a Mrs. Southwell. She was at that time an accomplished musician, tennis player and swimmer, but about eight years ago she became afflicted

with creeping paralysis and each year it became worse until in about three years it confined her to her bed, where she has been since.

Shortly before her affliction her mother, living with her daughter and son-in-law in the Hotel Walton, where they passed their winters, fell into a tub of boiling water and was scalded to death.

MOVIE EXPERTS VIEW  
NEW COLORED FILMS

Declare Demonstration of Recently Invented Process Solves Problem of Industry.

New York, Sept. 25.—Results of the new process of coloring motion pictures, to promote which William Travers Jerome and others have formed a \$1,000,000 company, were exhibited at a private showing in a projection room in the Chandler Building last week. The film was unrolled before a gathering consisting mainly of expert picture men, who seemed unanimous in

their opinion that the problem of the colored motion picture had been solved.

As announced, the new process is the invention of Daniel Frost Comstock, who has been at work upon it for seven years. The promotion company, headed by Mr. Jerome, in which about forty-five well-known business men are associated, has been making its plans for the last two years.

The films shown were portions of a picture recently taken in California under the direction of Joseph M. Schenck, who is the first producer to extend the new process to a five-reel feature film. According to the picture men who viewed the film yesterday, the new process solves all the problems that had hitherto been associated with colored films. It brings backgrounds out clearly and thus imparts a third dimension to a picture; it enables colored objects to move rapidly without blurring them, and it is particularly successful in bringing out the natural facial tints. At one point in the film quantities of colored cloth were slipped rapidly from one hand to

another, but the outlines were at all times clear.

S. L. Rothel, director of the Capitol Theatre and a pioneer picture man on Broadway, declared that he had seen the pictures and that he was enthusiastic about them. Among those who saw and approved the films was Charles Dana Gibson.

The last Sunday night train of the season over the C. P. R. from Fredericton reached here last evening shortly after 7 o'clock. The train was well filled with passengers, many being from the suburban stations.

Cuticura Soap

The Complexion

Keeps the skin healthy, smooth and clear. Cleanses, soothes, and protects the skin. Sold everywhere.

## It Keeps for Months—Always Handy

THOUSANDS of Canadian housewives now buy milk ahead—a week's or a month's supply—with their groceries.

They keep Carnation Milk on their pantry shelves—pure, rich, "whole" milk, fresh whenever needed.

Rich, fresh milk is delivered to the Carnation condenseries. Part of the water is taken away by evaporation. The milk of creamy consistency is then sealed in new containers and sterilized.

So Carnation Milk keeps. None is wasted. Your grocer can always supply you—winter or summer.

And Carnation Milk serves every milk purpose. Use it as cream, even for whipping. Dilute it with water for ordinary milk uses.

Order several tall (16 oz.) cans or a case of 48 cans from your grocer—the Carnation Milkman. Try this recipe and write for Recipe Book.

CREAM OF TOMATO SOUP.

2 teaspoonfuls sugar, 1/4 teaspoonful soda, 1 slice onion, 1 1/2 cups water, 4 tablespoonfuls butter, 1 cup Carnation Milk, 1/2 can tomato (2 cups), 2 cloves, 1 teaspoonful salt, 1 cup water, 4 tablespoonfuls flour, 1/4 teaspoonful pepper, 6 pepper corns, bit of bay leaf. Cook tomatoes slowly for twenty minutes with 1 1/2 cups of water, seasoning and sugar; strain, add salt and soda. Melt butter, add flour, stirring constantly. Add Carnation Milk diluted with one cup of water. Cook until thickened. Add the strained tomatoes to the milk. Serve at once.
