

PRIZE DAY AT THE COLLEGIATE

Headmaster Deals With the
Rothesay Memorial
Building

Pays Tribute to A. C. Skel-
ton—A Word for the Old
Boys—Year was a Good
One—Prize Winners.

This was prize day at the Rothesay Collegiate School and, as ever, an interesting programme was provided.

The report of the head master, Rev. W. R. Hibbard, M. A., D. C. L., contained a review of the work of the school year and dealt at some length with the plan for the erection of the memorial building now in course of construction. A high tribute was paid to A. C. Skelton and great regret was expressed at his removal to another sphere. The report was as follows:

Today marks the close of the 22nd year of the school on its present site and the 46th since its foundation. Undoubtedly the most notable feature of the school year was the beginning of the erection of our Memorial Building. The first sod was turned last July and on October 26 the corner stone was laid by His Lordship the Bishop with fitting ceremony. Construction has been carried on during the winter and spring and, as you can see much has been accomplished. What may be called the living quarters of the building are now nearly completed and we confidently hope to have the dining hall and adjoining offices ready for occupation when we open next term and the chapel a little later on. Certain changes will be made in the South House, where the present dining hall is, so that practically the whole of that house will be used for dormitories. The room in the top story of the School House which we have been using as a chapel, will be converted into additional class rooms. Thus the handicap which we have undergone in the past owing to lack of adequate room space will, I am happy to say, be removed.

Shortage of Funds.

The project of expansion at this time is a venture of faith which I feel confident will be justified in the future by the growth and increased influence of the school. The most serious question is that of the funds necessary to carry the undertaking to a successful issue. We are erecting the building for over twelve thousand dollars less than the first estimate called for when building prices were even higher than they are at present, but this does not mean that anything of importance either in the construction or the future usefulness of the building, has been sacrificed though several economies have been effected. Competent judges who examined the building, also the specifications and plans, have stated that we shall have, when completed, one of the best buildings of its kind in the province. To raise the necessary funds for the building is, however, a serious undertaking. At present a little more than fourteen thousand dollars has been subscribed by Old Boys and other friends, but unless we can raise at least twenty thousand in this way it will mean that too large a part of our revenue each year will have to go to defray interest and sinking fund charges. It is not an easy matter as things are at present to finance the running expenses of the school, and though we expect naturally to increase our revenue by being able to take a larger number of boys, yet our running expenses will in consequence go up and I shall feel very anxious until the pledges reach the total which I have mentioned. Since this time last year the subscriptions have been increased considerably, but there are still a good many who have promised subscriptions yet have not stated definitely the amount which they are prepared to give.

Old Boys' Response.

One of the most encouraging features in connection with this undertaking to raise funds was the response to a circular letter sent out to the Old Boys last autumn suggesting that they should contribute to this object making monthly payments for a year. Over a thousand dollars in small sums was raised in this way of which amount about three quarters has already been paid in. The payment of these monthly subscriptions meant, I know, real self-denial on the part of many and I would take this opportunity of thanking all those who responded so readily to the appeal.

There is one outstanding feature of this undertaking which cannot be over-emphasized. The building is being erected in memory of all our former members who gave their lives in the Great War and to commemorate as well the part taken by all of our Old Boys who enlisted. Had it not been for this most worthy object, I, for one, would have favored some less expensive mode of expansion; but for this object, once a building was decided upon, nothing but one of a permanent and dignified nature could be considered.

Fits for Interest.

There is another matter to which I referred in my report last year and of which I would speak again, and that is to ask for the active support and interest of all our friends, and especially of the Old Boys, in all that pertains to the life and welfare of the school. Practically all our Old Boys come to us either through the interest of present boys and their friends or through that of Old Boys who recommend the school. I would especially appeal for your support in this way now when we shall presently have room for some thirty more boys than we have been able to take in the past. A few years ago, when times were good, it would have been an easy matter to fill these places quickly, but now that business is depressed it will not be so easy; yet if the Old Boys and our friends and patrons generally will show their interest in the school in an active and practical way, I feel sure that we shortly fill up these prospective vacancies.

A Good Year.

I have dwelt at length on the erection of the new building and matters pertaining to this, so I must mention but briefly other events of the year. There were in all eighty-six boys in the school of whom eighty-one were in

He's Back Again With
Bags of Gold to Make
Princess Out of Mabel

PRINCE MOHAMMED ALI IBRAHIM IN A DANCE-STEP WITH CONNIE TALMADGE AND MABEL WITHEE HIS ENAMORATA.

New York, June 19.—Isn't it funny what a difference just a year can make?

A year ago Prince Mohammed Ali Ibrahim, nephew of the Khedive of Egypt and heir to a rich principality, came to New York and fell in love. Like many another promising young man, he first felt Cupid's fatal dart while sitting in a box at a Broadway musical show. The young woman who set a-beating the heart of one of King Tut's descendants, was Mabel Withee.

The prince demanded an introduction. He bought her a diamond and platinum lavalliere. He fed on mushrooms and humming-birds' wings. But the "shick" craze had not yet struck the girlhood of the country, and Mabel could not see it. It is reported on good authority that she made a date with the prince, and then "stood

him up." In no uncertain manner, she gave him "the air." The prince, heartbroken, set out for Hollywood and combed himself trotting around with Mable Normand and foxtrotting with "Connie" Talmadge. But he was never the same afterward. The experience of being "shucked" put such a dent in his princely dignity that he could not get over it. But, being a fighter as well as an Egyptian princeling, Mohammed Ali Ibrahim never knows when he is whipped. He has just landed back in the States again, without his trainer, "Blitz" McCloskey, whom he is said to have knocked for a row of signposts. Has he spent the last year training to win the winsome Mabel? Will he use his fists prowess to mow down the row of stage-door Johnnies who wait vainly, nightly, for Mabel? And will Mabel see her ducky suitor differently now that Rudolph Valentino, Ramon Navarro, et al, have set the style?

Form 3.
First, general proficiency, Frith; second, Nase.
Mr. Scott's prize for chemistry, Frith.
Mr. Scott's prize for English, Edisforth.

French prize, Nase.
Form 4.
First, general proficiency, Gordon; second, Beaton, minor; third, MacLean.

Deansy of Shadac, prize for mathematics, Douglas.
Mr. Ryder's prize for history, MacLean.

H. Usher Miller's prize for Latin and French, Beaton, minor.
Form 5A.
First, general proficiency, Wetmore; second, Foster, minor; third, Allen.

Bishop's prize for divinity, Armstrong.
Mr. Cooper's prize for Latin and French, Wetmore.

Form 5B.
First, general proficiency, Jones; second, Lence; third, Schofield, max.

H. Usher Miller's prize for mathematics, Jones.
Form 5A and 5B.
First, general proficiency, Schofield, minor; second, Robitaille; third, Hubbard.

Manual Training Prizes.
J. M. Robinson's prize for the Upper School, Adams.
Deansy of St. Andrews' prize for Lower School, Schofield, max.

General.
Walter Allison's prize for best kept room in North House, MacLean, Horner, Shannon.

Matrons' prizes for best kept rooms in South House, 1st, Sprenger, Peters, Robitaille, Kane; 2nd, McCurdy, Mason, Lance, Gidding.

Shooting Prizes.
Domville cup for best average in all matches, Pinder.

Rev. LaTouche Thompson's prizes for best averages obtained in miniature rifle matches, Senior, Nase; Intermediate, McAvity; Junior, Robitaille.

Rev. LaTouche Thompson's prize for Nature Study, Mason.

The monkey house at the Cincinnati Zoo has a hospital annex.

An Unfailing Way To Banish Hairs

(Beauty Notes.)
Ugly hairy growths can be removed in the privacy of your own home if you get a small original package of delatone and mix into a paste enough of the powder and water to cover the hairy surface. This should be left on the skin about 2 minutes, then removed and the skin washed and every trace of hair will have vanished. No harm or inconvenience can result from this treatment, but be sure you buy real delatone.

The Prizes.
The prize list was as follows:—
Scholarship Prizes.

First, gold medal—Gordon; 2nd, silver medal, Wetmore.

Prize for English essay, silver medal, presented by the Old Boys' Association, name to be announced later.

A. C. Skelton's prizes for the best averages in the lower school, first, Jones; second, Schofield, minor.

"The Torch of Verified Circulation"

Lights up the way for the Advertiser

The Telegraph and The Evening Times, with a combined daily net paid circulation exceeding 30,000 copies, are the only A. B. C. (Audit Bureau of Circulation) papers in the province of New Brunswick. These newspapers alone give the advertiser a verified circulation whose extent is absolutely known and established beyond question.

Mr. Advertiser, do you realize what this means?

All of the principal Canadian dailies are members of the A. B. C. That is, they give their advertisers, present and prospective, circulation figures which are audited, certified and approved by an independent court whose standing is recognized in business circles throughout Canada and the United States.

Mr. Advertiser, Look at this:

The Following Canadian Newspapers are members of the A. B. C.:

St. John—The Telegraph and The Evening Times (the only A. B. C. papers in New Brunswick).

Halifax—The Chronicle and Echo, The Herald and Mail.

Charlottetown—The Guardian.

Quebec City—Le Soleil, L'Evenement.

Montreal—The Gazette, The Star, The Herald, La Presse, La Patrie, Le Canada, Le Devoir, The Standard.

Ottawa—The Citizen, The Journal, Le Droit.

Toronto—The Globe, The Star, The Mail and Empire and Sunday World, The Telegram.

London—The Advertiser, The Free Press.

Brantford—The Expositor.

Brockville—The Recorder and Times.

Fort William—The Times-Journal.

Hamilton—The Spectator.

Kingston—The British Whig, The Standard.

Windsor—The Border Cities' Star.

Winnipeg—The Manitoba Free Press, The Tribune.

Saskatoon—The Star, The Phoenix.

Regina—The Leader, The Post.

Calgary—The Morning Albertan, The Herald.

Edmonton—The Bulletin, The Journal.

Vancouver—The Province, The Sun, The World.

Victoria—The Colonist, The Times.

Mr. Advertiser, in that list you have the chief newspapers of Canada. They give you an independent audit of their circulation by a universally recognized authority.

"Net Paid" circulation does not mean old lists of doubtful value. "Net Paid" means that every subscriber included in the figures is either paid in advance or does not owe for more than six months. The Telegraph and Times, remember, have a combined "net paid" daily circulation of more than 30,000 copies.

Figuring by circulation The Telegraph and Times rates are the lowest in the Maritime Provinces.

By putting the same ad in both papers you cover the city of St. John and the province of New Brunswick as with a blanket, so far as prospective buyers of your goods are concerned, for these two papers reach to a really wonderful extent the people in this city and this province who are in a position to purchase the goods that local or national advertisers offer for sale, be these goods bonds or toothpicks, razors or mowing machines, diamonds or medicines, shoes or silks.

Think over the facts, Mr. Advertiser. Just ask yourself quietly and thoughtfully what that chain of leading Canadian newspapers means. Their verified circulation is their greatest advertising solicitor. Think about "the torch of verified circulation."
